## TWO DEMENTED MEN

Are the Cause of Much Anxiety to Sheriff Ferguson and the Poor Superintendents.

## BOTH OF THEM ARE TRAMPS.

And are Refused Admittance to the Insane Asylum at Kalamazoo for That Reason.

Probate Judge Van Riper is in a quandary. Sheriff Ferguson is in a like condition and the superintendents of the poor are studiously meditating over the same problem that is tormenting the judge and the sheriff.

There is an insane man in the county jail named Edward Finley. He is violent and when arrested by Officer Minister at Gallen Saturday he put up a desperate fight, mutilating the face, neck and shoulders of the officer to a very uncomfortable extent. In the county poor house is another insane man, who also is dangerous. He has torn his bed clothing in shreds, broke the furniture of his room into kindling wood and attempted to crush out his brains on the walls of his cell. His name is Thomas Lee. He was arrested at Coloma recently.

Both men are tramps by occupation. Finley claims to be a native of Ireland and Lee a subject of Queen Victoria. Neither of the men have lived in any state long enough to secure a residence. A law, recently passed, provides that a demented person who has not resided in a township, village or city of any state for one year continuously, shall not be sent to any county or state insane asylum of such state and there be supported. Such persons, the law says, shall be taken back to the state where they had a residence, the authorities of which are required to care for them.

Finley and Lee have not been in Michigan a year and there is no evidence that there is a state in the union where they have resided a year. Both men have been refused at the Kalamazoo asylum and what to do with them is a bothersome query to their present custodians. Sheriff Ferguson is not disposed to convey Finley back to Ireland and the poor superintendents have no inclination to take Lee to Canada.

The sheriff cannot collect any compensation from the county for boarding Finley because he is not a county charge. He hesitates to release the man because of the possibility of his killing someone in his madness, "and what can I do," uttered the sheriff with a sigh as he portrayed his trouble to a NEWS representative this morning.

The superintendents of the poor had Lee in their charge before the new law went into effect and the county must therefore pay for his board. But that fact is not what worries the superintendents. Lee is as strong as an ox and as desperate as an ill-ratoned lion and in his tantrums four men are required to hold him. For this reason the poor authorities want to send him to an asylum where they have facilities for caring for men in his condition. But having no residence here he is refused at Kalamazoo.

## CONGRESSMAN HAMILTON.

He Was Witness to a Quiet Civil Wedding Ceremony.

Yesterday afternoon Luther Johnson and Miss Alma Chamberlin, of Indiana, were married in the office of the county clerk in the court house by Justice Baldrey. The occasion was made more important by the presence of Congressman Hamilton, who, with Miss Margaret Wilkinson, was a witness to the wedding. Mr. Hamilton appeared in the new role with the same calm dignity that he exercised in lopping off the heads of democratic postmasters.

## IN MIDLAKE.

A South Bend Girl Marries Her Lover.

An interesting feature of the boat ride to South Haven yesterday by the South Bend excursionists, aboard the steamer City of Chicago was the marriage of a Valparaiso clergyman and a South Bend young lady by Rev. Mr. Keller, of South Bend. The ceremony was performed at 10:45 o'clock while the big steamer was ploughing through the billows on its way to South Haven. The lake was tremendously rough in the afternoon and some of the excursionists were so ill when the boat reached the dock on its return voyage that they had to be carried off the vessel.

## 12 POLES DOWN.

St. Joseph Goes After the Bell Telephone Company.

The St. Joseph city council last night ordered the street commissioner to remove 12 poles set by the Bell telephone company after it had been notified by the council to refrain from planting more poles. They were declared a nuisance. Acting under the council's orders the street commissioner removed the poles this morning and hauled them to the city lot. He also tore down the wires. This will stop telephonic connection between the business and residence portions of the city and will no doubt bring a strong remonstrance from the Bell people. The new poles were all located in residence localities.

The resolution to remove the poles was fought most bitterly by Alderman Reeves. He was the only councilman who opposed it. He openly accused Alderman Barnes of being a stock holder in the new citizens' telephone company and insisted that for that reason he was not entitled to a vote. Barnes denied the allegation. Reeves was boiling over with rage. His face was white with passion as he shrieked his denunciation of the resolution. William Engerberg, the deposed engineer at the water works station, presented a claim for salary from June 1 to June 16 and a claim of \$75 for fixtures he had placed in the station while its engineer. The claims were disallowed.

S. F. McCary was appointed a special policeman.

## STILL AT LARGE.

No News From the Runaway Jail-Breakers.

Sheriff Ferguson has not yet received any advices of the jail-breakers. He is surprised that no telegrams bearing on the matter have yet reached him, but he is still hopeful.

## THE DOG TAX.

Owners of Dogs Slow in Paying \$1 for the Fine.

Up to date the owners of less than forty dogs have appeared at the office of the city clerk and purchased licenses for their dogs. The dog catcher has begun operations and last night slaughtered two dogs and he has five in the dog pound today and more will be butchered tonight.

It is estimated that there are from 250 to 300 dogs in the city but only 102 could be found to pay a license last season.

## IN THE CRIMINAL COURT.

A Woman in Jail for Drunkenness.

Mrs. Jennie Aldrich, 54 years old, was received at the county jail this morning to serve a sentence of 10 days for drunkenness. She was arrested by the St. Joseph police officers yesterday afternoon, and at the time was so drunk she could not tell the officers her name. She was locked up in the city jail until this morning when she was taken before Justice Baldrey who sent her to the county jail. She is poorly dressed and has a dissipated appearance. She occupies the woman's cell.

Paul Clifford appeared before Justice Baldrey this morning to answer to the complaint of being drunk. He pleaded guilty and received a sentence of 15 days in the county jail.

## Niles Aldermen Fight.

NILES, Aug. 4.—Aldermen Earl and Sheehan indulged in a fight yesterday in which the former was quite badly injured. The fight was the result of a personal remark made by Sheehan at the last council meeting. The men met in a justice office, where Sheehan was swearing out a warrant for Earl's arrest. The latter attacked Sheehan and Sheehan picked up a chair and knocked Earl down. He received a terrible cut on the forehead.

## CONNECTED NEWS

Some Amendments by Recent Sensations from Hawaii.

### OUR FLAG IS NOT THERE JUST YET.

Will Not Be There Till Congress Passes the Annexation Treaty—Protectorate Was Not Declared Monday, as Reported—Instructions to the Minister and Naval Commander—Ex-United States Minister to Japan Comments on the Situation.

Washington, Aug. 4.—The correspondent of the Associated Press at Honolulu has been sending some "news" that the departments here desire to correct. The Belgic arrived from the Orient at San Francisco yesterday and this is what it brought from said correspondent: "The arrival of the steamship Mouna from San Francisco means much for Hawaii. In official circles it is generally understood that United States Minister Sewell will carry out the instructions received in the last mail, said to be to this effect: If the Mouna brings word that congress failed to pass the annexation treaty, Minister Sewell is to declare a protectorate and raise the American flag. The American minister has had frequent consultations with President Dole within the last week, and it is believed they have agreed on a programme. The general impression here is that congress has decided to let the matter of annexation wait over until the regular session.

Come from a "Reliable" Source. "The intervening months would be a long time for this country to go alone, in view of the attitude of Japan, and Secretary Sherman believes a protectorate of the United States is the only way to prevent possible hostile action on the part of the Japanese. As soon as the Mouna arrives it is understood the United States minister will notify this government of his intention to raise the American flag. Diplomatic etiquette will allow a day or two for answer, and it is expected everything will be in readiness to declare a protectorate Monday, Aug. 2. The foregoing information comes from a reliable source, and but few persons in Honolulu are aware of the near approach of the most important event in the history of the country."

Not a Particle of Truth in the Story. It is declared positively at the state department that there has been no change in the instructions given either to Minister Sewell or to Admiral Beardslee as to their attitude toward the Hawaiian question. The admiral's instructions were to protect American interests at all points, and to establish a protectorate only in the event of serious disturbance or the commission of some overt act. It is not understood that the execution of this order was at all dependent upon the action or non-action of congress upon the annexation. At the navy department an even more explicit denial of the story that the flag was to be hoisted Monday was obtained. It was said that Admiral Beardslee's orders only contemplate a landing in an emergency to preserve the status quo, and that the landing in that case would not be for a longer period of time than was necessary to restore conditions to their former shape. It was said that as President McKinley had referred the whole matter to congress, along with the annexation treaty, it would not be courteous to that body for the executive to act of its own volition until congress had expressed its will.

Bottom Out of Another Yarn. So much for that sensation. Now for another that has recently been exploited. The latest advices of the navy department from the Asiatic station make no mention of any trouble such as reported between the sailors of the Yorktown and Boston with the Japanese at Kobe, and for that reason the officials at the department attach no importance to the report. It is the practice of commanders of United States warships to offer a reward for the capture of deserters from their ships in foreign parts, and it is surmised that if any of our sailors have been roughly handled it may have been some deserters who were captured by the local authorities for the reward. A recently published story of the ill-treatment of United States sailors in Honolulu turns out to have exactly this fact for a foundation. Some deserters were captured by the local police and as they resisted it was necessary to tie them up and deliver them in this shape aboard ship.

### VIEWS OF AN EX-DIPLOMAT.

Looks for No Trouble with Japan, Who Has a Good Case Against Hawaii. San Francisco, Aug. 4.—Hon. Edwin Dun, ex-United States minister to Japan, is a through passenger on the Belgic. He is en route for Washington, accompanied by his daughter, and expects to spend several weeks in the United States before returning to Japan, where he has resided since 1873. Dun believes in Hawaiian annexation, but is of the opinion that the present congress will never take favorable action on the treaty now before it. He does not look for any rupture that may disturb the friendly relations now existing between the United States and Japan, but he does believe that the Japanese government has a just claim against the Hawaiian government in connection with the immigration trouble, although she is not likely to enforce her claims in case the Hawaiian government refuses to recognize them. "Annexation should have been accomplished four years ago," said Dun, "and then all of the present difficulties would have been avoided. There is no possible likelihood of trouble between Japan and the United States, reports to the contrary notwithstanding. They have enjoyed peaceful trade conditions that are constantly growing, and Hawaii is not of sufficient importance to bring them to an open rupture. Japan naturally protested against the annexation treaty. "I believe that the Japanese government will act favorably upon the recent offer of arbitration made by the Hawaiian government. The Japanese of all classes feel very bitterly against the Hawaiian government, but I may venture the opinion that whatever the outcome of the present correspondence will be, Japan will come about to see

## LIGHTNING DOES REALLY WORK.

Two Little Children Killed Although Taken to the Cellar.

Webster City, Ia., Aug. 4.—The spark of life in two little bodies was snuffed out in the twinkling of an eye and the havoc that lightning played within the city limits for almost an hour during one of the severest electrical storms that ever visited Iowa seems incredible. The dead are: Minnie Luppuss, aged 3; Carl Luppuss, aged 4. The spire of the Baptist church was shattered; the elevator owned by the Webster City Elevator company was struck; the handsome residence of Edward Burgess was in the way of a bolt; the iron roof of the Queen livery barn, owned by William Wilke, was torn from the building; a barn belonging to Burt Butler was struck and his horses killed, while trees were shattered on every side. Mrs. John Luppuss and her two little children were at their home southeast of the city when the fatal crash came. The mother had just taken her three children to the cellar, and with her oldest daughter was standing at an opening in the basement, watching the progress of the storm. The two little ones were huddled together in the rear corner. Both Mrs. Luppuss and her daughter were stunned by the flash. As soon as they recovered from the shock they turned to the children and found them both dead, clasped in each other's arms. The same bolt had done the work.

### MURDER IN THE STRIKE REGION.

Hungarians Beat a Man to Death Because He Went to Work.

Wheeling, W. Va., Aug. 4.—At Corinth, W. Va., at 7 o'clock last night, Joseph Gloszani, an Italian coal miner, was beaten so badly by a gang of striking Hungarian miners that he cannot live, and four of his fellow countrymen were severely maltreated. The miners at the Oakland Coal and Coke company's mines were organized last Sunday and joined the strike. Manager William McLaughlin yesterday notified the men that if they did not go to work in the morning all would be discharged. Five Italian miners declared their intention of going to work. They were corralled by fifty Hungarian miners, and when they again declared their intention the Hungarians assaulted them with clubs and stones. Five of them ran the gauntlet and escaped with severe but not dangerous wounds. Gloszani was knocked down and all the Hungarians devoted their attention to him. His skull was crushed, one arm and half a dozen ribs broken, while his legs, body, head and arms are masses of bruises and cuts. Sheriff Wilson went to the scene, but the Hungarians defied him and his two deputies. Last night the Hungarians crossed the line into Maryland. They threaten to kill any man who enters the mine.

SECOND YEAR—NO. 569.

BENTON HARBOR, MICH., WEDNESDAY, AUGUST 4, 1897.

## WILL RECEIVE NO PAY.

Township Drain Commissioners of Berrien County Hit by the Attorney General.

## HE DECIDES AGAINST THEM

And Says They Have Had No Jurisdiction in Drain Building Since June 2, 1897.

Prosecuting Attorney Valentine this morning received an important opinion from Attorney General Maynard relative to the new drain law approved June 2, 1897, abolishing the office of township drain commissioner and placing the construction of drains entirely in charge of the county commissioner.

The question which has caused the township drain commissioners considerable vexation was whether they had jurisdiction in carrying forward to completion the proceedings begun by them before the act in question was passed. A few who had heard of the new law in question counseled with Prosecutor Valentine and he advised them that they had no jurisdiction. Some of them were not inclined to coincide with the view of the prosecutor and went on with the work they had begun before the new law was approved. The new law was approved June 2, 1897, and went into immediate effect. Many of the township commissioners had not heard of the new law and have continued the performance of the duties of their office ever since the law was enacted.

Prosecutor Valentine, although well founded in the belief that the township commissioners had no jurisdiction after the approval of the act of June 2, 1897, and that the half-completed township drains must pass from the charge of the township commissioners and be completed by the county commissioner, wrote to Attorney General Maynard for his opinion. The communication was answered by Deputy Attorney General Henry E. Chase, the attorney general being absent from his office. Mr. Chase requested Prosecutor Valentine to furnish his opinion, which he did as expressed above. This morning the prosecutor received communication from the attorney general in which he stated that he concurred with Mr. Valentine in every particular regarding his construction of the new law.

The attorney general says: "The provisions of the new act, bearing upon the question of the jurisdiction of the township commissioners, are contained in section 3 of chapter 2 which reads: 'The county drain commissioner shall have jurisdiction over all drains within his county including those hereafter established and now in process of construction by the township drain commissioner.' Section 9 of chapter 2 says: 'The office of township drain commissioner is hereby abolished.'"

The opinion of Attorney General Maynard is regarded with considerable interest, and will be read with great disappointment by the township drain commissioners, who have paid no attention to the new law and have continued with the construction of drains, as there is a possibility of their not receiving compensation for the work they have done since June 2, 1897, when the law was approved.

Further than this the county will be put to considerable additional expense through the unobservance of the new act by the township commissioner. All the drain proceedings begun by them since June 2 are void and will have to be corrected, they having no jurisdiction after that date. There are some very important drains, particularly one under the Michigan Central railway track in Bertrand township, proceedings to widen which have been commenced by the township commissioners since June 2, the proceedings of which will have to be reviewed, entailing heavy expense.

Mr. Valentine is unable to see how one drain commissioner, as the new act provides, can take care of the drain business of this county which is very extensive.

## BIG WEDDING.

Miss Jennie Bacon Marries a Chicago Man.

Today at noon occurred the marriage of Miss Jennie Bacon and Charles Ford at the home of Mrs. D. W. Jackson, the bride's mother, on the Lake Shore drive.

The ceremony was performed by Rev. M. S. Woodruff of this city, in the presence of a large company of friends from Chicago and Milwaukee. Mr. Ford is a Chicago business man and with his wife will move to that city at once.

## IN FIVE DAYS

Will Morton of Coloma Expects to Ride to St. Paul.

Will Morton, who has spent the summer working on the farm of John Krause near Coloma, was in the city this morning on his way to St. Paul. The distance to St. Paul is a little over 300 miles and Morton expects to make the run in five days if the weather is favorable. He says he can keep up a clip of 100 miles a day with ready ease and as he is going to St. Paul anyway by riding that distance he makes or saves \$3 per day railroad fare. This is more than he can make at picking berries or owning a large berry farm this year.

## A CENTURY RUN.

It Will be Made by Twin City Wheelmen.

Fifteen wheelmen of Benton Harbor and St. Joseph, will ride to Elkhart and return, a distance of 104 miles, Sunday. They will leave St. Joseph at 4 o'clock in the morning and reach Elkhart at 8:30 or 9 o'clock, leaving that city on the return trip at 2 o'clock in the afternoon and arriving home at 7 o'clock.

The route as selected takes in the cities of Berrien Springs, Niles, South Bend and Mishawaka. The wheeling from St. Joseph to Niles is rather hard on account of the sand, but from Niles to Elkhart it is a pleasure to ride.

It is desired to have as large a party as possible and although 15 have already expressed a purpose to ride the "Century" as many more are urged to join the aggregation. Those inclined to make the run are urged to register at R. H. Hotchkiss & Co's store, St. Joseph, so that arrangements for hotel accommodations may be made.

### Story of the Klondike.

Governor Pingree visited Alaska in 1897, and was at Dyea in the latter part of August. An old missionary, who had been in Alaska for 30 years, was returning from a visit to the United States. He landed at Dyea and

Mr. Pingree brought many curios home with him, which have been resurrected, owing to the present excitement. In Alaska, he says, all Americans are called "Bostons" by the Indians, presumably because the first Americans to settle there were from Boston.

## WILL NOT RETURN.

Frank Phiscater Has all the Klondike He Wants.

A San Francisco paper in a published interview makes Frank Phiscater, of Baroda, say:

"In two and a half months' time, with the aid of nine men, I took from my claim \$96,072. On a piece of ground 35x86 feet I took out \$49,800. Some idea of the richness of the claim may be had when I say that two men shoveled two hours and cleaned up \$6,000. The next day they worked two hours, \$1,500 being the result. At another time they worked three hours and a half and took out \$7,500.

"I do not think it likely that I will return to the Klondike district next spring or any other time if I can avoid it. I find that the climate does not agree with me. While in Seattle I made arrangements with a gentleman who, for a consideration of \$500 a month and a stake of \$50,000, will look after my interests at the diggings.

"Not half has yet been told of the wonderful resources of the entire Northwest Territory. It is a country abounding in riches, and in time, in my opinion, will become the most prosperous on earth.

"The next steamer from Dawson City to San Francisco will bring probably three or four million dollars in gold dust. Among the successful miners who will return to civilization with their pockets lined with gold nuggets may be mentioned Frank Denmore and William McFee. They will bring at least \$300,000. Jimmie McAmee will bring out \$120,000 and Joe Wald will return to his home in lower California with \$35,000, that being the amount for which he sold his claim.

"Of course it must not be understood that every man who has gone to the Klondike has made money. In fact, the situation is just the reverse. But I will say that every man who has worked has made money faster there than anywhere else. The trouble with the old miners is that they take things easy and so let the young fellows, who are ambitious and unaccustomed to the hardships, get ahead of them."

## A CAUTION.

Warning to the Public Against Being Duped.

It is seldom that the manager of the Barnum & Bailey Greatest Show on Earth, has to personally caution his friends, the public, but there would seem to be a great necessity for it this year. It is stated as a fact, that, owing to the early opening of the exhibitions of the Barnum & Bailey Show in Madison Square Garden, New York City, (and by the way, no other circus is large enough or good enough to venture before the critical audiences assembled in that city), that such early opening gives an opportunity to all the managers of little shows, called circuses by courtesy, to see the performance in New York and then go back to their printers and order duplicate copies of all the pictorial printing used by the Barnum & Bailey Circus. This has been done for many seasons past, but this year the theft has assumed such gigantic proportions that Mr. J. A. Bailey has, for the first time in his life, to publicly warn all his patrons to be on their guard against gross impositions of this nature. It is only on paper, however, that the wonderful attractions of the Barnum & Bailey Show can be duplicated, for all the other shows combined have not capital enough to buy any of the great features in that institution. It was the same story with Jumbo—every show was advertising a big elephant, also with the baby elephant, also with the white elephant, and in the case of the latter some show went so far as to whiten an elephant and palm it off as genuine. This year the public may expect to see a dozen shows advertise the possession of a gorilla, because the Barnum & Bailey Circus has the only one in captivity in the world. They may be advertised by other shows, but they cannot be exhibited, and the public will be simply duped again if they should go to any show with the expectation of seeing the only Johanna except Barnum & Bailey's. Then they will also see a triple circus in three rings, with 16 champion equestrians, stage performances with only the greatest artists, races with only thoroughbred horses, and trained jockeys, aerial acts with only the most daring performers, menageries with only the rarest and finest specimens and more of them, the entertainment of musicians, magicians, jugglers, fire kings, lightning calculators, giants, midgets, Orissa twins, and others. As for the street parade, see it once, and you will say there are no others. It will be here on 60 cars on Saturday, August 7.

Just how many railroad cars any other circus has the station agent will tell you.

use of the most approved remedy for  
snake bites.

It is Sheriff Ferguson's fault. If he  
had fed his guests on shark's fins and  
mushrooms they would not have left  
him for the world.

THERE is something wrong some-  
where. A week ago Secretary Gage  
told the people prosperity was here  
and now comes Senator Mark Hanna,  
the official custodian of prosperity, and  
he says the wave will strike the  
country in 60 days. The common  
people in consequence do not know  
where they are at.

BEFORE going to Alaska to hunt for  
gold the man or woman who has the  
Klondike fever should first visit the  
vicinity of Jersey City, N. J. There  
the mosquitoes have stopped all farm  
work, the berry fields being abandoned  
and the grain allowed to waste in the  
lot. Last Sunday the pests broke up  
a camp meeting and the situation is  
alarming. In Alaska the greatest  
danger is from mosquitoes. A person  
who can brave the horrors of New Jer-  
sey will make a good miner for the  
gold fields of the north.

#### Yellowstone Lake.

There is an individuality about  
lakes. Perhaps the most striking  
thing about Yellowstone lake is its  
high altitude. It is up among the  
mountains and clouds in Yellowstone  
park nearly a mile and a half—7,741  
feet—above where the sportive sum-  
mer girl sits on the beach at the At-  
lantic ocean while the lazy wavelets  
ripple about her dainty toes. But as  
high as it is the mountains rise higher  
still by thousands of feet. In a solemn,  
owl-like fashion they blink down at  
the lake, and the lake blinks back at  
them. These mountains are well de-  
fined peaks, and cones, and turrets,  
and nearly all are named. Some of  
them are in this way redolent of the  
old explorers, the men who first  
braved the perils and difficulties of an  
unknown, untrodden wilderness. Such  
are Colter peak and Mount Doane.

The above is taken from "Wonder-  
land '97," a beautiful new Tourist  
book published by the Northern Pa-  
cific railway. It will be mailed to any  
address upon receipt of six cents in  
stamps by CHAS. S. FEE, Gen'l Pass.

NIGHT before last Mr. and Mrs. Allen Brunson escaped from a dangerous accident with only slight injuries. They were driving near their farm in Sodus with a load of empty barrels on a berry rack and when near the residence of Mr. Burdick they drove off an embankment seven feet high. Both Mr. and Mrs. Brunson were badly bruised. Mr. Brunson has driven a team for fifty years and this is the first accident he ever experienced.

ALDERMAN Volheim is laughing about a joke on City Attorney Ellsworth. It was represented to the city attorney that a party would go to Paw Paw lake this morning to spend the day. Mr. Ellsworth went down to the morning train with a lunch basket filled for twenty but when train time came he was alone. The "boys" were watching about the corners of the station to see how he took it. Not to be outdone the city attorney got up a little crowd and made the trip this afternoon.

Workmen are Now Setting Poles in Coloma Village

COLOMA, August 4.—The laborers in the employ of the Twin City Telephone company, under the immediate charge of Inspector Stevens, are now in this village setting poles. Their progress is from half a mile to a mile and a quarter per day.

The poles are now in place between this village and Watervliet, ready for the wires.

## A NOTABLE ADDITION.

The \$3,000 Annex to a Fine School Building.

WATERVLIET, August 4.—This village has always prided itself on its schools. It has always paid its teachers more than any other town of its size in this vicinity, and the building and grounds are kept in excellent condition.

There is now in process of construction a fine four room addition to the original building, which, when completed, will give Watervliet a school plant better than two-thirds of the towns of 1,000 people possess. Truly teachers and pupils can say that "their lines have fallen to them in pleasant places."

## DROWNED IN THE LAKE.

Two Grand Rapids Society Girls Perish at Ottawa Beach.

GRAND RAPIDS, August 4.—Clara, daughter of Sherwood Hall, and Ethel, daughter of E. J. Herrick, both of this city, aged 19 and 18 years respectively, were drowned at Ottawa beach yesterday afternoon.

They were bathing in Lake Michigan, and climbed upon a springboard north of the pier, where the water is about five feet deep. Miss Hall either fell or dove into the water and Miss Herrick followed. They were caught in the undertow and drowned before those on shore realized there was any danger. Up to 7 o'clock last night the life saving crew had not recovered the bodies.

Herrick and Hall are prominent business men here and their daughters were well known and popular in society. The families were spending the summer at the beach.

## NEW CIRCUS IDEA.

You Can Ride to Barnum & Bailey's Big Show on a Bicycle.

An innovation in circus management is the introduction of a bicycle checking department by Barnum & Bailey, who will bring the greatest show on earth to Benton Harbor next Saturday.

So many applications were made at the front door for permission to leave wheels in charge of employees that it was decided immediately after the present tour began to provide a tent near the main entrance where machines could be checked, brass tags issued to the owners and perfect security be secured. Wheelmen are glad to avail themselves of the opportunity to leave their "bikes" in responsible hands, and bicycle circus parties have become popular along the Barnum & Bailey route. In Washington, Baltimore, Richmond, Atlanta and Augusta a large number of "circus runs" were organized for the matinee performance, and the bicyclists of this city will undoubtedly follow suit.

KEELEY NOT FIRST.

CURE FOR DRUNKENNESS REPORTED FROM THE LONG AGO.

Remarkable Effect of the "Indian Doctor" Simple Remedy—How the "Medicine" Cured Joe Robinson Without Asking the "Doctor."

It was about the medicated whisky which we proposed to speak. To Dr. Keeley, who, living down at Dwight, is almost a neighbor, credit is generally given for being the first person who employed the pharmacopoeia for the purpose of killing a drunkard's appetite. But Dr. Keeley is by no means entitled to this credit. The first physician whose medicine ever cured a drinking man of his thirst was a long haired, spectacled old tourist who called himself "the Indian doctor," and who operated down in the neighborhood of Belpre, O.

The doctor did not tell the secret of his medicament, but three or four boys who lived near the farmhouse where he boarded had an inkling, because the boys had the contract for catching the toads for which the doctor paid them 10 cents a dozen.

While the doctor's abode has been spoken of as a farmhouse it was more than that, for, being near a stockyard, where trains "lay over," it was also a boarding house, or tavern, whither the drovers came for entertainment. Among the stockmen whose duties brought them frequently to the yards, and therefore to the farmhouse boarding place, was a man named Joe Robinson, who had drunk whisky all the way from St. Louis to Baltimore, with special reference to Piedmont and the country along the 17 mile grade of the Baltimore and Ohio. Robinson was a firm, vigorous and vigilant drinker, one who allowed no guilty dramshop to escape. He was such a shining light that at least 13 temperance societies were working upon him at once, for it was known that the credit for his reformation would mean much. But he resisted all their entreating efforts.

This brings things up to one May evening. Robinson had arrived at Belpre with seven cars of hogs and a large, commodious and far-reaching jag. He took the hogs into the stockyards and the jag to the city of Parkersburg, W. Va., just across the river, for he wanted to trim and ornament it a little before retiring. Now it so occurred that it was a damp night, and Harry Stone and Hughie Drain, the boys who had the contract for supplying hoptoads to the salve making Indian doctor, set out on their own hook and without consultation with their employer to get a floor bag full of toads. They were eminently successful, and at 8 o'clock they appeared at the boarding house with a sack of kicking, piping, shrieking ope. For good measure they had on this occasion added three belated garter snakes, two lizards and a hoot owl. The family was not happy.

Mrs. Bruce directed the boys to carry their burden, of the character of which she had no idea, up to the doctor's room, he being out. The boys did so—or at least they thought they did—but they turned the wrong corner at the head of the stairs and deposited the sack in the room to be occupied by Joe Robinson.

Mr. Robinson came home from Parkersburg about midnight. The evening had been a most successful one. He had found 19 new saloons. He entered the room in the boarding house with the presumption that he was either the czar of Russia or Napoleon Bonaparte, but was not quite sure which. In his doubt he collided with the paper floor bag full of hoptoads and things. There were a few words of wicked derivation, and then, turning up the light, Mr. Robinson looked to see what he had found.

"Who're you, feller?" he inquired, addressing the bag. "Won't answer, hey? Too p'late to talk to a drover, huh? 'Lrd! Kick that!" And he aimed an untidy kick at the doctor's ingredients. Then things happened.

An active garter snake left the bag in midair, and, alighting on a picture frame, twisted and squirmed before Mr. Robinson's view. Then the toads began raining around him, and when he felt most surprised and interested the owl came forth and flew at the lamp. The neck fell to the floor and a lizard shot into lengthened view and the rest of the hoptoads leaped out into comparative liberty. Mr. Robinson clambered in fright upon the bed and found himself in the presence of half a dozen of the batrachian invaders which had been flung upon the counterpane by the force of that very vigorous and masterful kick. He crept behind the bureau and, lo! a garter snake dropped therefrom and made for the shelter of the closet. In the middle of the floor there were, he believed, about 8,953 varied kinds of hopping visitors, and with a wailing cry Mr. Robinson crashed through the vortex and made for the door and bolted for the night outside.

The next morning a very pale and unstrung man appeared at the farm boarding house and answered to the name of Joe Robinson. He went up to his apartment and looked about for some signs of the visitation of the night before, but the toads and things, more frightened than he, had escaped by the same door through which he had gone, while the faithful hired girl had gathered up the floor bag and burned it. Mr. Robinson sat down and thought for a moment, and then he said, addressing himself to the picture frame from which the snake had dangled, that this was the last time. He had had enough. More would be his death.

And for the remaining 14 years of his life he lived that way he was the soberest man known to history.

Several men gathered about a house near the western market commencing upon the prominence of the town's ribs and general lookiness. The animal belonged to a farmer living near Ypsilanti, and, it was said, never permitted grass to grow under its feet on the road. The farmer was not pleased with the remarks and the strong inferences that the poor thing had never realized the sensation of corn and oats. "What do you call your horse?" was asked.

"Cyclone, and don't he look it?" replied the man from the rural districts. "Cyclone! What a name! He certainly looks as if one had struck him."

"That's what happened to him, my friend. It was just like this. You remember the awful breeze we had out to Ypsilanti about three years ago? This feller was a sucking colt at the time and was in the barn with two horses. The cyclone, regular old hummer, came along and thrashed the barn off its legs and dropped it high on to 100 yards away. After the twister had raised all the hob, fences and sheds it could we went out to look things up. The two horses were stone dead and the colt—would you believe it?—was nowhere to be found."

"Next day I turned over the hen-coop, which lay in the field half a mile away. Right in that coop and laying on the door which faced down was the colt. He commenced kicking when he heard us, and we took him out in a hurry. He wasn't scared a bit, I tell you, and was cool as a cucumber. The neighbors say they saw the coop goin through the air and the colt after it. The little feller caught the coop and got inside of it to save himself, that's what he did. That's the plain truth, and if you don't believe it ask the colt. Good day, strangers."—Detroit Free Press.

PATENT APPLICATIONS.

The Vast Majority of These Sent to Washington Are Rejected.

The applications for patents filed average about 195 a day. There are 35 principal examiners, with perhaps 300 assistants. Every examiner and every assistant examiner has his own specialty. Let us take the case, say, of a poor inventor living in Oregon. He makes a valuable invention and desires to obtain a patent. He sends his application with \$15 to the commissioner of patents. It is referred to the examiner having charge of that peculiar class of inventions. It is his duty to reject it if anything can be found on which to base a rejection. Nearly 600,000 patents have been granted in the United States, and probably more than 1,000,000 in the rest of the world. If any of these anticipate the invention, the examiner must reject the application. It is not necessary that exactly the same thing should have existed before, for if anything substantially similar can be found the applicant must go to the wall. But, more than this, if anything similar has been described in any printed publication, in any language, anywhere in the world, or if without being patented or described in print it has been used anywhere in the United States, the examiner should reject.

The rub comes all the time upon the degree of similarity which will constitute an anticipation of the invention. A tremendous responsibility, it will be seen, is thus thrown upon the examiner. He wants to be safe. It is both his pride and his duty not to allow a patent to go out that ought to have been rejected. The consequence is that a great many examinations reject almost everything on the first examination. No matter how broadly new the invention may be, something can always be found that is akin to it. The nearest thing that can be found is used as a basis for rejection.—Washington Star.

Mysterious Glass Balls.

The small island of Billiton, between Sumatra and Borneo, has long been famous for its rich tin mines, which are controlled by the Dutch government. In describing the geology of Billiton before the Royal Academy of Sciences in Amsterdam recently Mr. Verbeek gave an account of the mysterious "glass balls of Billiton," which are found among some of the tin ore deposits. They are round, with grooved surfaces. Similar balls are occasionally found in Borneo and Java, as well as in Australia. Mr. Verbeek thinks they cannot be artificial, and there are no volcanoes near enough to support the theory that they are volcanic bombs. Besides, he says, the glassy rocks produced by the nearest volcanoes are quite different in their nature from the material of the balls. He suspected that the mysterious objects were ejected ages ago from the volcanoes of the moon and afterward fell upon the earth.

A Summer Cure.

In a news item in The Sun a doctor is quoted as saying that a day's abstinence from food will cure summer complaint. Some years ago the writer cured dysentery of several weeks' duration by taking a few wineglassful doses of the following formula at half hour intervals—viz, a tablespoonful of table salt and two of cider vinegar in a pint of water. The relief was permanent. The remedy was recently used by a person suffering from a customary summer complaint, and two doses effected a cure, of the complaint.—E. E. D. in New York Sun.

The late Duke of Marlborough, in alluding to the size of Blenheim palace, used to say, by way of a joke, that it was the only residence in England which required \$4,000 worth of putty a year to keep the window panes in order.

White Dome Geyser Yellowstone Park.

"A mile and a half from the Fountain Hotel, and easily reached by bicycle, tourist wagon, or by walking, lies a hidden basin full of nature's caprices. At the entrance, as if on guard, stands the immaculate White Dome. As one approaches, he almost expects to be challenged and asked for a countersign. If such a challenge is given it is in a curious fashion, in the form of a geyser eruption, for the White Dome is a geyser. It is not unlike the Castle Geyser, or the White Pyramid of the Upper Geyser Basin. The geyser is a very white, rather dome-shaped mound, built up from the secretions of its waters, and is the most conspicuous feature of the locality. It is perhaps 25 feet high, with a circumference at the base of 75 or 100 feet. Its eruptions come at intervals of from twenty to forty-five minutes, being somewhat irregular, and the water is thrown to a height of from ten to twenty-five feet."

WHAT ABOUT WOMEN  
So Far as the Mines of the De  
Armit's Are Involved.

MOST OF THE MEN HAVE QUIT.

De Armit Says Because They Are Afraid to  
Work, While the Strikers Leaders Declare  
They Are Winning by Methods Perfectly  
Feasible.—That Question To Be Tested in  
Court.—Situation in West Virginia—In-  
diana Strikers on the March.

Pittsburg, Aug. 4.—The lull in the sit-  
uation after the exciting events of the  
last twenty-four hours is the first oppor-  
tunity the strike leaders have had to size  
up the situation. As a result each of the  
three camps of striking miners was yes-  
terday placed under strict military gov-  
ernment. This will be continued until  
the camps are abandoned. Two members  
of the district executive board were  
placed at each camp. These men are to  
receive instructions from Dolan and  
Warner, and no further general move-  
ment is to be made until a general confer-  
ence is held. Secretary Warner is ex-  
periencing great difficulty in getting  
provisions. The demand for bread is so  
great that the local bakeries were un-  
able to meet the orders placed yesterday  
morning. As a result, the camp at Plum  
Creek will be on short rations.

In speaking of the situation last night,  
President Dolan said: "The entire suc-  
cess of the movement now depends upon  
the order maintained in camp. We have  
demonstrated to De Armit that his men,  
whom he had bound with the ironclads,  
were not invulnerable. When I left the  
mines today his entire interests were at  
a standstill. The New York and Cleve-  
land company has given up all hope of  
operating the Sandy Creek mines, while  
those at Plum Creek and Turtle Creek  
are so badly crippled that there are not  
enough men to get out a car of coal.  
These statements are not based upon the  
idle talk of the men, but upon personal  
observation. Mr. De Armit undoubtedly  
recognizes that the strike situation is  
gradually assuming a favorable aspect  
for the men, and that if order can be  
preserved his defeat is certain."

When asked regarding the report of  
the need of the state military forces he  
said: "The men are orderly, and have  
never given any sign of making trouble.  
Instead they have been harassed by in-  
dividuals who, it seems to me, want to  
incite riot and bloodshed among the  
men." Last evening Dolan issued a gen-  
eral order appointing Edward McKay  
general manager of Camp Determina-  
tion, and empowering him to make ar-  
rests and eject all persons under the in-  
fluence of intoxicants trespassing on the  
premises of the camp.

The miners' officials have retained W.  
J. Brennan to defend them at the  
hearing before Justice Semmens at  
Turtle Creek this afternoon. They are  
charged with riot and unlawful as-  
sembly. It is reported that there will  
be some fine points of law discussed.  
Attorney Sol. Schoyer will appear on  
behalf of the prosecutors. There are  
close upon 2,000 strikers in camp at  
Turtle Creek, 350 at Plum Creek and  
300 at Sandy Creek. If this number is  
not sufficient to deter the De Armit  
miners from going to work all these  
camps will be largely increased before  
the end of the week. Arrangements are  
being made for the big meeting on the  
wharf tomorrow. It promises to be the  
greatest demonstration of the kind  
ever held in this city. Eugene V. Debs  
and Mrs. Mary G. Jones will be the  
stellar attractions among the speakers.  
Mayor Ford was asked by the men to  
preside over the meeting, which invita-  
tion he emphatically declined on the  
ground that he was acting neutrally in  
the strike question.

DE ARMIT'S VIEW OF AFFAIRS.

Says His Men Are Afraid Even to Leave  
Their Wives Alone.

De Armit is confident the strikers can-  
not wholly shut down his mines and  
averts that a change will come over the  
scene within the next few days, although  
he does not say how it is to be brought  
about. De Armit intimated that he  
would soon spring the injunction against  
the miners which was granted May 25,  
1916, and which was sustained by the  
supreme court after the superior court  
had reversed the lower court. This in-  
junction, which was issued against John  
Calms, Cameron Miller, Patrick Dolan,  
Owen Cruz, William Warner and others  
was made perpetual and restrained the  
defendants from assembling and en-  
camping upon the highways, roads and  
premises adjoining the mines of the  
plaintiff, or in the vicinity of the same  
for the purpose of intimidating and pre-  
venting the plaintiff's miners from work-  
ing, etc.

De Armit said: "The miners employed  
on our mines are not only intimidated  
from going to work, but they dare not  
leave their families at home at the  
mercy of a mob responsible to no one.  
The mob has increased until it is beyond  
control of law." De Armit would not  
say, but judging from the remarks it is  
believed he is expecting that Sheriff  
Lowrey will call on the governor for  
troops to disperse the strikers.

ATKINSON'S REPLY TO GOMPER'S.

Seems to Think Those Injunctions Are All  
Right—Progress of the Strike.

Charleston, W. Va., Aug. 4.—Governor  
Atkinson has written a letter to Messrs.  
Gompers, Sovereign and Ratchford, a  
committee on behalf of the striking min-  
ers who called on him to inquire con-  
cerning the injunction against them and  
to ask what were their rights in connec-  
tion with addressing miners. The gov-  
ernor reminds them that his office is  
executive and he cannot interfere with  
the action of the courts, but he goes on  
to say that in his opinion there is the  
utmost freedom allowed in the discus-  
sion in public places of any subject.

The only restrictions are that there  
must not be trespass upon the property  
of others nor incite to riot or unlawful  
violence. He assures the men that he  
will protect all citizens in the exercise  
of the right of free speech, warning  
them at the same time that if they abuse  
that right by interfering with the rights  
of property of others he will just as en-  
ergetically use the power of the state  
to remove all lawlessness and preserve  
peace.

Atkinson, W. Va., Aug. 4.—A secret  
service of the miners of this district  
has been organized at which all min-  
ing communities are invited to partici-  
pate.

It is believed that the Farmers  
will come out and as Clarkburg  
is already tied up it looks like the strike  
is nearly over, if it depends on the men  
of this district.

INDIANA MINERS MARCHING.

They Make No Effort to Keep the Peace,  
but Drive Men Out.

Princeton, Ind., Aug. 4.—The striking  
miners of Daviess, Pike and Gibson  
counties have taken the marching fever,  
and yesterday a movement began in  
which they will attempt to close every  
coal mine in southern Indiana. The  
march began among the Daviess county  
miners. They invaded Pike county and  
closed the mine at Rogers and the  
Wooley mine at Petersburg. It is re-  
ported here that the strikers entered  
the Wooley mine and drove the men at  
work out like cattle. It is the intention  
of the strikers to close the Carbon and  
Ayrshire mines east of Oakland City,  
but it is feared that they will encounter  
trouble at Ayrshire, as the men there  
are determined to work.

The strikers have threatened to seize  
a Louisville and St. Louis Air Line  
freight train and take it to Hunting-  
burg, where they will call the men out.  
They will then go down the Evansville  
branch on the Air Line and close all the  
mines in Warrick, Spencer and Perry  
counties. Superintendent Holbrook, of  
the Air Line, has asked the sheriffs of  
the various counties through which his  
line passes for protection, and it is said  
the sheriffs have promised to do so.  
Trouble is feared.

SETTLED BY ILLINOIS ARBITRATORS.

Book Binders Win a Case Against Several  
Big Chicago Firms.

Springfield, Ill., Aug. 4.—In the mat-  
ter of the joint application of W. B. Con-  
key & Co., the George Hill Co., Brock  
& Rankin, and the Thomas Knapp  
Printing and Binding company, and  
their employees represented by the Chi-  
cago Printers' and Book Binders' union  
No. 8, of the International Brotherhood  
of Book Binders, the board of arbitration  
yesterday rendered a decision to the ef-  
fect that the employees had the right to  
withdraw the agreement and scale of  
wages known as the "blue scale." This  
decision will put into effect the "white  
label" scale, and is a victory for the em-  
ployees. Both sides entered into a writ-  
ten agreement to abide by the decision  
of the board of arbitration.

Struck Out of Work.

Mt. Vernon, Ill., Aug. 4.—Every miner  
employed in the local mines refused to  
return to work yesterday. They all  
called at the office and were paid off in  
full. The company is filling its con-  
tracts with coal shipped from Kentucky  
and Tennessee. A coal famine is prob-  
able here in a few days. The water  
works began the use of wood fuel yes-  
terday and it is most likely the mills  
will be compelled to do likewise in a  
few days. These men struck out of  
sympathy and were given until yester-  
day noon to return to work. They were  
earning from \$2 to \$4 per day.

Miners Make Grave Charges.

Altoona, Pa., Aug. 4.—Although the  
Michell coal operators at Hastings sup-  
posed they had made satisfactory terms  
with their miners, the men are still out,  
because of a rumor that the mines are  
about to pass into other hands. The trou-  
ble at the Sterling mine No. 8 is still on.  
Thirty-two men have taken a new step  
by suing the officials of the mine for the  
value of the fifth ton taken of their  
wages. The miners say that in addition  
to being obliged to dig 2,500 pounds for  
a ton they have been robbed of every  
fifth car they put out.

Strikers Fractured His Skull.

Brazil, Ind., Aug. 4.—Monday evening  
a number of miners went to the Big Four  
mine belonging to the Indiana Block  
Coal company and ordered Walter  
Wright to discontinue work. He refused  
and a fight occurred, in which William  
Daniels struck Wright on the head with  
a club, fracturing his skull and render-  
ing him unconscious.

FARMING IN THE SOUTH.

NO DROUGHTS, GENIAL CLIMATE AND  
AVAILABLE SECTIONS ESPECIALLY  
ADAPTED TO SETTLEMENT BY  
NORTHERN FARMERS.

Almost every variety of grains and grasses  
grown in the North can be successfully grown  
in the South, but the crops that give best re-  
sults for the money invested and labor ex-  
pended are fruits and vegetables. Cotton is no  
longer King in the South. This wonderful  
change may possibly have been brought about  
by the large number of Northern farmers that  
have located at so many points on the Illinois  
Central and the Yazoo & Mississippi Valley  
railroads in the States of Kentucky, Tennessee,  
Mississippi and Louisiana, and carried with them  
the

PRACTICAL IDEAS OF  
DIVERSIFIED FARMING

as practiced in the North. No country in  
America can compare with southern Missis-  
sippi and northern Louisiana for the cultivation  
of fruits and vegetables, and the time is  
not far distant when this locality will supply  
the early markets of the North and North-  
west. All who contemplate a change of loca-  
tion should investigate this favored section, to  
aid in which, send for a free copy of the

ticultural advantages of the country traversed  
by the Illinois Central and the Yazoo & Missis-  
sippi Valley Railroads in the States of Ken-  
tucky, Tennessee, Mississippi and Louisiana.  
It is a 130-page book issued by the Illinois Cen-  
tral Railroad Co., containing many fine illus-  
trations and facts about the South. For this  
book, and for further information as to locality,  
topography of the country, character of the  
soil, and products to which it is adapted,  
prices and kindred matter, address at Man-

THE EVENING NEWS

# Steamers Disabled and Rescuers Turned Away.

CHICAGO, August 4.—On Monday and Tuesday two of the smaller steamers were disabled to handle the heavy traffic incidental to this time of the year, and the service was inadequate. Some of the boats are disabled.

On Sunday over half the resorters who came to spend several days were obliged to return to Chicago on the night boat, there being no suitable accommodations open for them. Boarding house keepers are crowded, and while this circumstance was regretted, it unfortunately happened that the rush was too great. It may not, and we hope will not occur again.

## ST. JOSEPH.

Frank Salm has returned from Benton Harbor.

A son was born yesterday to Mr. and Mrs. Oliver Legg.

Dudley Wallace's condition is more serious again, his recovery being very slow.

The hop at Drake & Wallace's pavilion was attended by a very fashionable crowd last night.

Sam Miller, of New York City, is the guest of his parents whom he has not visited in three years.

E. A. Graham will build a brick store 35x70 feet and two stories high on his lot on State street near the residence of J. H. Graham. Work will begin at once.

"The Chimney Corner" will be presented at the Academy of Music tomorrow night for the benefit of Messrs. Welch, Wesner and Mitchell of the Baker Stock company. Professional talent will appear throughout the play.

The annual picnic of the Watermelon club will be held tomorrow at Yellow Creek to which place the members will be conveyed on the steamer Tourist. The club is 10 years old and includes a happy aggregation of St. Joseph citizens.

A boating party including Mrs. T. S. Kerns, Mr. and Mrs. H. C. Muhle and son, Mrs. C. J. Harpel, Mr. and Mrs. Shideler, Mrs. A. Vincent, Miss Wade, Miss Maude Vincent and Mr. Blake, made the trip to Berrien Springs yesterday on the steamer May Graham.

## HER ONLY FAULT.

As I went to my bachelor chamber one night And reflected on life as I put out the light I resolved that the clubs I would visit no more, But devote my affections to dear Isadore.

She is faultless in figure and lovely in face, Every movement the very perfection of grace— So confiding and gentle, congenial and sweet That the stoics and cynics are all at her feet.

Like the wings of the humming bird over the keys Fly her tapering fingers in Liszt's potpourris;

She excels on the harp and the Spanish guitar, And her voice is soprano that reaches to fa.

She is witty and brilliant in quick repartees, And she sings cavatinas with marvelous E's, Conversation in German and French can sustain.

And has traveled in Italy, Egypt and Spain.

All the tender emotions so scouted before Were aroused in my heart for the fair Isadore, But my growing affections are nipped in the bud, For she will drag her skirts through the streets in the mud!

—W. H. Morris in New York Ledger.

## A WONDERFUL POND.

Human Eyes Are Often Inhabited by Large Numbers of Living Creatures.

The water contained in a well developed, well formed eye in which the sight is not impaired, more especially where a person is farsighted, presents many curious phenomena. Looking through an open window in daylight upon a hazy atmosphere or upon a fog such as is seen in any city, or looking to the north upon a gray atmosphere, one will see, if conditions are as above, strange disks flitting and jumping about in the eye water. It has been my privilege to watch these organisms for several years, flitting about in the eye water, jumping toward each other again in strife and combat, in the which the water would become comparatively clear of amœbiform organisms, only to be again full of micrococci and the combats as above.

The various shapes of these animalcules are surprising. Some are attenuated, with fine filaments. Again, others are like wee bits of fine porcelain, with little projections, reminding one of turtles hopping about. Again, others present the appearance of cyclops and daphne.

How these organisms get into the eye water is a mystery—perhaps in the water we drink or foods we eat, either or both. The fact that the eye water is inhabited, like all other bodies of water, is a truth that can be proved positively, beyond peradventure, by any oculist when he may extract a diseased eye and place the fluid under the glass.

May not the accumulation of these organisms in the eye water, their rapid growth and the survival of the fittest or strongest be the cause of much blindness, wherein may be cataracts, conglutination of the eye water, so called paralysis of the optic nerve, cataracts and other forms of disease?

May not numerous headaches and other pains be caused by the overaccumulation or growth of these minute organisms, in which they stop the circulation of the active principle of life in the arterial circulation or the nervous forces? The same organisms are seen when looking upon drawing paper. —William W. Goodrich in New York Herald.

apparently to be a Roman candle was  
found near O'Meara's residence by Ma-  
mie Benson and two other little girls.  
While playing with it one of the chil-  
dren struck it with a piece of iron. It  
exploded, and the O'Meara child was li-  
terally peppered with fragments of brass,  
lead and glass. The other two children  
were terribly cut. Several attempts have  
been made on O'Meara's life heretofore.

## Next!

Fort Dodge, Ia., Aug. 4.—R. B. Can-  
field baked two apples in the sun last  
week. No effort was made to concen-  
trate the heat beyond laying the fruit  
on a board where Old Sol's rays hit it  
fairly without obstruction. It took two  
days to cook them through, but at the  
end of that time they were done to a  
turn. Canfield ate them with cream  
and sugar. He pronounced the flavor  
delicious, but he carries an umbrella  
now lest he become himself the victim  
of the heat rays.

## Klondyke Risks Are too Hazardous.

Chicago, Aug. 4.—The Chicago agent  
of the Travelers' Insurance company,  
of Hartford, Conn., has received instruc-  
tions from his home office not to insure  
any person going to the Klondyke re-  
gion. It is a risk that the company does  
not desire to take on account of the  
extreme hazard and because when death  
takes place the difficulty of obtaining  
the facts makes settlement of claims too  
difficult to be practicable.

## Wheat Crop of Michigan.

Detroit, Aug. 4.—Gillet & Hall, the  
veteran grain dealers, in speaking of  
the new crop, said: "It is coming in  
slowly, because it is about three weeks  
late, but is of a very fine quality. The  
crop will be 25,000,000 bushels, as against  
15,000,000 last year. Sixty cars of new  
wheat came in yesterday, making 150  
on the crop. Preparations are now mak-  
ing for a free movement."

## Pioneer Wisconsin Man Dead.

Janesville, Wis., Aug. 4.—Frank  
Sheldon Lawrence, an early settler of  
Rock county, died at his home in this  
city, aged 72 years. He came to Janes-  
ville to reside in 1852. He served as  
clerk in the office of secretary of state  
from 1860 to 1864, and was a member of  
the state assembly in 1879-80.

## Paid About \$2 a Steer.

Nogales, A. T., Aug. 4.—The first im-  
portation of American cattle under the  
Dingley tariff law was made through  
the custom house here. Six hundred  
and forty head of steers, the property  
of E. S. Newman, were brought into this  
country, the duty being \$1.25 over the  
duties fixed by the Wilson bill.

## THE PREVAILING SKIRT.

Tight Gloves and Shoes Not in Taste.  
Dressing the Hair.

The skirt of the period is close around  
the hips, flaring at the foot, especially to-  
ward the back, and has no godets in front  
or at the sides. It varies in cut accord-  
ing to the material employed, its weight  
and width and the size of the person for  
whom the skirt is intended. All skirts  
are ordinarily lined, excepting those of  
muslin and other transparent, sheer goods,  
and also have an inside facing at the foot

## DINNER BODICE.

of haircloth or other stiffening. This is  
diminishing in size and rigidity all the  
time. There are also full skirts, shirred  
around the hips and mounted at the belt  
over an underskirt of silk, made quite  
close and plain.

To have white hands it is necessary to  
avoid tight gloves, which are not only in-  
jurious, but inelegant. Persons of good  
taste never wear tight gloves or tight  
shoes. They leave those to servants, whose  
extremities are characteristically clothed in  
coverings strained to the bursting point.  
No defect in the toilet is more striking  
than the appearance of a foot crowded into  
a shoe too small for it, bulging in the  
wrong places and looking as if it had been  
forced in by some mechanical process. To  
return to the care of the hands, real al-  
mond meal is excellent for whitening them,  
and loose, old gloves should always be  
worn about the rougher household duties.  
One should never go out of doors without  
gloves on also.

The hair is worn very high, the nape of  
the neck being left uncovered. The side  
hair is waved and arranged in a slightly  
bouffant style.

A picture is given of a dinner bodice  
of suede surah. It is close fitting at the  
back and has a yoke and plastron of light  
pink surah, shirred under narrow bands  
of brown velvet. The yoke and plastron  
are bordered by pink ruffles forming open-  
lets. Ribbons of brown satin are fastened  
in front by paste buckles and join the  
brown satin belt, which is tied behind.  
The half length sleeves of suede surah are  
trimmed with ruffles of pink surah and  
narrow bands of brown velvet. Rows of  
brown satin are fastened at the edge of the  
sleeves by paste buckles. The collar of  
suede surah is trimmed with pink ruffles.

## TWO DEMENTED MEN

Are the Cause of Much Anxiety to Sheriff Ferguson and the Poor Superintendents.

### BOTH OF THEM ARE TRAMPS.

And are Refused Admittance to the Insane Asylum at Kalamazoo for That Reason.

Probate Judge Van Riper is in a quandary. Sheriff Ferguson is in a like condition and the superintendents of the poor are studiously meditating over the same problem that is tormenting the judge and the sheriff.

There is an insane man in the county jail named Edward Finley. He is violent and when arrested by Officer Minister at Gallen Saturday he put up a desperate fight, mutilating the face, neck and shoulders of the officer to a very uncomfortable extent. In the county poor house is another insane man, who also is dangerous. He has torn his bed clothing in shreds, broke the furniture of his room into kindling wood and attempted to crush out his brains on the walls of his cell. His name is Thomas Lee. He was arrested at Coloma recently.

Both men are tramps by occupation. Finley claims to be a native of Ireland and Lee a subject of Queen Victoria. Neither of the men have lived in any state long enough to secure a residence. A law, recently passed, provides that a demented person who has not resided in a township, village or city of any state for one year continuously, shall not be sent to any county or state insane asylum of such state and there be supported. Such persons, the law says, shall be taken back to the state where they had a residence, the authorities of which are required to care for them.

Finley and Lee have not been in Michigan a year and there is no evidence that there is a state in the union where they have resided a year. Both men have been refused at the Kalamazoo asylum and what to do with them is a bothersome query to their present custodians. Sheriff Ferguson is not disposed to convey Finley back to Ireland and the poor superintendents have no inclination to take Lee to Canada. The sheriff cannot collect any compensation from the county for boarding Finley because he is not a county charge. He hesitates to release the man because of the possibility of his killing someone in his madness, "and what can I do," uttered the sheriff with a sigh as he portrayed his trouble to a NEWS representative this morning.

The superintendents of the poor had Lee in their charge before the new law went into effect and the county must therefore pay for his board. But that fact is not what worries the superintendents. Lee is as strong as an ox and as desperate as an ill-ratoned lion and in his tantrums four men are required to hold him. For this reason the poor authorities want to send him to an asylum where they have facilities for caring for men in his condition. But having no residence here he is refused at Kalamazoo.

### CONGRESSMAN HAMILTON.

He Was Witness to a Quiet Civil Wedding Ceremony.

Yesterday afternoon Luther Johnson and Miss Alma Chamberlin, of Indiana, were married in the office of the county clerk in the court house by Justice Baldrey. The occasion was made more important by the presence of Congressman Hamilton, who, with Miss Margaret Wilkinson, was a witness to the wedding. Mr. Hamilton appeared in the new role with the same calm dignity that he exercised in looping off the heads of democratic postmasters.

### IN MIDLAKE.

A South Bend Girl Marries Her Lover.

An interesting feature of the boat ride to South Haven yesterday by the South Bend excursionists, aboard the steamer City of Chicago was the marriage of a Valparaiso clergyman and a South Bend young lady by Rev. Mr. Keller, of South Bend. The ceremony was performed at 10:45 o'clock while the big steamer was plunging through the billows on its way to South Haven. The lake was tremendously rough in the afternoon and some of the excursionists were so ill when the boat reached the dock on its return voyage that they had to be carried off the vessel.

### 12 POLES DOWN.

St. Joseph Goes After the Bell Telephone Company.

The St. Joseph city council last night ordered the street commissioner to remove 12 poles set by the Bell telephone company after it had been notified by the council to refrain from planting more poles. They were declared a nuisance. Acting under the council's orders the street commissioner removed the poles this morning and hauled them to the city lot. He also tore down the wires. This will stop telephonic connection between the business and residence portions of the city and will no doubt bring a strong remonstrance from the Bell people. The new poles were all located in residence localities.

The resolution to remove the poles was fought most bitterly by Alderman Reeves. He was the only councilman who opposed it. He openly accused Alderman Barnes of being a stock holder in the new citizens' telephone company and insisted that for that reason he was not entitled to a vote. Barnes denied the allegation. Reeves was boiling over with rage. His face was white with passion as he shrieked his denunciation of the resolution. William Engerberg, the deposed engineer at the water works station, presented a claim for salary from June 1 to June 16 and a claim of \$75 for fixtures he had placed in the station while its engineer. The claims were disallowed.

S. F. McCary was appointed a special policeman.

### STILL AT LARGE.

No News From the Runaway Jail-Breakers.

Sheriff Ferguson has not yet received any advices of the jail-breakers. He is surprised that no telegrams bearing on the matter have yet reached him, but he is still hopeful.

### THE DOG TAX.

Owners of Dogs Slow in Paying \$1 for the Fine.

Up to date the owners of less than forty dogs have appeared at the office of the city clerk and purchased licenses for their dogs. The dog catcher has begun operations and last night slaughtered two dogs and he has five in the dog pound today and more will be butchered tonight.

It is estimated that there are from 250 to 300 dogs in the city but only 102 could be found to pay a license last season.

### IN THE CRIMINAL COURT.

A Woman in Jail for Drunkenness.

Mrs. Jennie Aldrich, 54 years old, was received at the county jail this morning to serve a sentence of 10 days for drunkenness. She was arrested by the St. Joseph police officers yesterday afternoon, and at the time was so drunk she could not tell the officers her name. She was locked up in the city jail until this morning when she was taken before Justice Baldrey who sent her to the county jail. She is poorly dressed and has a dissipated appearance. She occupies the woman's cell.

Paul Clifford appeared before Justice Baldrey this morning to answer to the complaint of being drunk. He pleaded guilty and received a sentence of 15 days in the county jail.

### Niles Aldermen Fight.

NILES, Aug. 4.—Aldermen Earl and Sheehan indulged in a fight yesterday in which the former was quite badly injured. The fight was the result of a personal remark made by Sheehan at the last council meeting. The men met in a justice office, where Sheehan was swearing out a warrant for Earl's arrest. The latter attacked Sheehan and Sheehan picked up a chair and knocked Earl down. He received a terrible cut on the forehead.

## WILL RECEIVE NO PAY.

Township Drain Commissioners of Berrien County Hit by the Attorney General.

## HE DECIDES AGAINST THEM

And Says They Have Had No Jurisdiction in Drain Building Since June 2, 1897.

Prosecuting Attorney Valentine this morning received an important opinion from Attorney General Maynard relative to the new drain law approved June 2, 1897, abolishing the office of township drain commissioner and placing the construction of drains entirely in charge of the county commissioners.

The question which has caused the township drain commissioners considerable vexation was whether they had jurisdiction in carrying forward to completion the proceedings begun by them before the act in question was passed. A few who had heard of the new law in question counseled with Prosecutor Valentine and he advised them that they had no jurisdiction. Some of them were not inclined to coincide with the view of the prosecutor and went on with the work they had begun before the new law was approved. The new law was approved June 2, 1897, and went into immediate effect. Many of the township commissioners had not heard of the new law and have continued the performance of the duties of their office ever since the law was enacted.

Prosecutor Valentine, although well founded in the belief that the township commissioners had no jurisdiction after the approval of the act of June 2, 1897, and that the half-completed township drains must pass from the charge of the township commissioners and be completed by the county commissioner, wrote to Attorney General Maynard for his opinion. The communication was answered by Deputy Attorney General Henry E. Chase, the attorney general being absent from his office. Mr. Chase requested Prosecutor Valentine to furnish his opinion, which he did as expressed above. This morning the prosecutor received communication from the attorney general in which he stated that he concurred with Mr. Valentine in every particular regarding his construction of the new law.

The attorney general says: "The provisions of the new act, bearing upon the question of the jurisdiction of the township commissioners, are contained in section 3 of chapter 2 which reads: 'The county drain commissioner shall have jurisdiction over all drains within his county including those hereafter established and now in process of construction by the township drain commissioner.' Section 9 of chapter 2 says: 'The office of township drain commissioner is hereby abolished.'"

The opinion of Attorney General Maynard is regarded with considerable interest, and will be read with great disappointment by the township drain commissioners, who have paid no attention to the new law and have continued with the construction of drains, as there is a possibility of their not receiving compensation for the work they have done since June 2, 1897, when the law was approved.

Further than this the county will be put to considerable additional expense through the unobservance of the new act by the township commissioner. All the drain proceedings begun by them since June 2 are void and will have to be corrected, they having no jurisdiction after that date. There are some very important drains, particularly one under the Michigan Central railway track in Bertrand township, proceedings to widen which have been commenced by the township commissioners since June 2, the proceedings of which will have to be reviewed, entailing heavy expense.

Mr. Valentine is unable to see how one drain commissioner, as the new act provides, can take care of the drain business of this county which is very extensive.

## BIG WEDDING.

Miss Jennie Bacon Marries a Chicago Man.

Today at noon occurred the marriage of Miss Jennie Bacon and Charles Ford at the home of Mrs. D. W. Jackson, the bride's mother, on the Lake Shore drive.

The ceremony was performed by Rev. M. S. Woodruff of this city, in the presence of a large company of friends from Chicago and Milwaukee. Mr. Ford is a Chicago business man and with his wife will move to that city at once.

## IN FIVE DAYS

Will Morton of Coloma Expects to Ride to St. Paul.

Will Morton, who has spent the summer working on the farm of John Krause near Coloma, was in the city this morning on his way to St. Paul. The distance to St. Paul is a little over 300 miles and Morton expects to make the run in five days if the weather is favorable. He says he can keep up a clip of 100 miles a day with ready ease and as he is going to St. Paul anyway by riding that distance he makes or saves \$3 per day railroad fare. This is more than he can make at picking berries or owning a large berry farm this year.

## A CENTURY RUN.

It Will be Made by Twin City Wheelmen.

Fifteen wheelmen of Benton Harbor and St. Joseph, will ride to Elkhart and return, a distance of 104 miles, Sunday. They will leave St. Joseph at 4 o'clock in the morning and reach Elkhart at 8:30 or 9 o'clock, leaving that city on the return trip at 2 o'clock in the afternoon and arriving home at 7 o'clock.

The route as selected takes in the cities of Berrien Springs, Niles, South Bend and Mishawaka. The wheeling from St. Joseph to Niles is rather hard on account of the sand, but from Niles to Elkhart it is a pleasure to ride.

It is desired to have as large a party as possible and although 15 have already expressed a purpose to ride the "Century" as many more are urged to join the aggregation. Those inclined to make the run are urged to register at R. H. Hotchkiss & Co's store, St. Joseph, so that arrangements for hotel accommodations may be made.

### Story of the Klondike.

Mr. Pingree brought many curios home with him, which have been resurrected, owing to the present excitement. In Alaska, he says, all Americans are called "Bostons" by the Indians, presumably because the first Americans to settle there were from Boston.

## WILL NOT RETURN.

Frank Phiscater Has all the Klondike He Wants.

A San Francisco paper in a published interview makes Frank Phiscater, of Baroda, say:

"In two and a half months' time, with the aid of nine men, I took from my claim \$98,072. On a piece of ground 35x86 feet I took out \$49,800. Some idea of the richness of the claim may be had when I say that two men shoveled two hours and cleaned up \$6,000. The next day they worked two hours, \$1,500 being the result. At another time they worked three hours and a half and took out \$7,500.

"I do not think it likely that I will return to the Klondike district next spring or any other time if I can avoid it. I find that the climate does not agree with me. While in Seattle I made arrangements with a gentleman who, for a consideration of \$500 a month and a stake of \$50,000, will look after my interests at the diggings.

"Not half has yet been told of the wonderful resources of the entire Northwest Territory. It is a country abounding in riches, and in time, in my opinion, will become the most prosperous on earth.

"The next steamer from Dawson City to San Francisco will bring probably three or four million dollars in gold dust. Among the successful miners who will return to civilization with their pockets lined with gold nuggets may be mentioned Frank Densmore and William McFee. They will bring at least \$300,000. Jimmie McAmees will bring out \$120,000 and Joe Wald will return to his home in lower California with \$35,000, that being the amount for which he sold his claim.

"Of course it must not be understood that every man who has gone to the Klondike has made money. In fact, the situation is just the reverse. But I will say that every man who has worked has made money faster there than anywhere else. The trouble with the old miners is that they take things easy and so let the young fellows, who are ambitious and unaccustomed to the hardships, get ahead of them."

Mrs. L. N. Fitch has opened hair-dressing parlors in the Sweet block, over I. O. Perring's photograph gallery and is prepared to do all kinds of work in that line. Switch-making a specialty. 569t6

## A CAUTION.

Warning to the Public Against Being Duped.

It is seldom that the manager of the Barnum & Bailey Greatest Show on Earth, has to personally caution his friends, the public, but there would seem to be a great necessity for it this year. It is stated as a fact, that, owing to the early opening of the exhibitions of the Barnum & Bailey Show in Madison Square Garden, New York City, (and by the way, no other circus is large enough or good enough to venture before the critical audiences assembled in that city), that such early opening gives an opportunity to all the managers of little shows, called circuses by courtesy, to see the performance in New York and then go back to their printers and order duplicate copies of all the pictorial printing used by the Barnum & Bailey Circus. This has been done for many seasons past, but this year the theft has assumed such gigantic proportions that Mr. J. A. Bailey has, for the first time in his life, to publicly warn all his patrons to be on their guard against gross impositions of this nature. It is only on paper, however, that the wonderful attractions of the Barnum & Bailey Show can be duplicated, for all the other shows combined have not capital enough to buy any of the great features in that institution. It was the same story with Jumbo—every show was advertising a big elephant, also with the baby elephant, also with the white elephant, and in the case of the latter some show went so far as to whiten an elephant and palm it off as genuine. This year the public may expect to see a dozen shows advertise the possession of a gorilla, because the Barnum & Bailey Circus has the only one in captivity in the world. They may be advertised by other shows, but they cannot be exhibited, and the public will be simply duped again if they should go to any show with the expectation of seeing the only Johanna except Barnum & Bailey's. Then they will also see a triple circus in three rings, with 16 champion equestrians, stage performances with only the greatest artists, races with only thoroughbred horses, and trained jockeys, aerial acts with only the most daring performers, menageries with only the rarest and finest specimens and more of them, the entertainment of musicians, magicians, jugglers, fire kings, lightning calculators, grants, midgrets, Orissa twins, and others. As for the street parade, see it once, and you will say there are no others. It will be here on 60 cars on Saturday, August 7.

Just how many railroad cars any other circus has the station agent will tell you.

**Yellowstone Lake.**

"There is an individuality about lakes. Perhaps the most striking thing about Yellowstone lake is its high altitude. It is up among the mountains and clouds in Yellowstone park nearly a mile and a half—7,741 feet—above where the sportive summer girl sits on the beach at the Atlantic ocean while the lazy wavelets ripple about her dainty toes. But as high as it is the mountains rise higher still by thousands of feet. In a solemn, owl-like fashion they blink down at the lake, and the lake blinks back at them. These mountains are well defined peaks, and cones, and turrets, and nearly all are named. Some of them are in this way redolent of the old explorers, the men who first braved the perils and difficulties of an unknown, untrodden wilderness. Such are Colter peak and Mount Doane."

SINCE March 1, the Colby, Hinkley company has paid out \$11,000 for labor, which does not include the salaries of the officers of the company. The company pays out over \$500 every Tuesday for nine months of the year and is one of the best institutions the city has.

THE ladies of the first church of God in Benton Harbor have secured a room in the Bowman building on Pipestone street, and on Saturday, August 7, will serve ice cream and other refreshments. They have also secured a stand near the show grounds for the same purpose.

SUPERINTENDENT George F. Sonner of the Congregational Sunday school and Attorney Cady took a ride up the St. Joseph river yesterday to select a spot for the Sunday school picnic which will be held next week. The steamer Tourist will be chartered for the occasion.

RALPH Benton has succeeded Caldwell & Benton in the plumbing business. Mr. Benton is an industrious young man and a good workman and is working up a good trade. His plumbing shop has been removed to larger quarters in the building on Bluff street formerly occupied by the Pictorial publishing company. His former partner, Mr. Caldwell, has returned to his former home in South Bend.

Mr. and Mrs. Frazell celebrated their fourth wedding anniversary Monday night. Seventy-five of their friends were very hospitably entertained, the refreshments being served on the lawn of their residence. During the evening Mr. Frazell was presented with a handsome easy chair by the members of Frazell's Military band, the presentation being made by Fred A. Hobbs. Other useful presents were received.

NIGHT before last Mr. and Mrs. Allen Brunson escaped from a dangerous accident with only slight injuries. They were driving near their farm in Sodus with a load of empty barrels on a berry rack and when near the residence of Mr. Burdick they drove off an embankment seven feet high. Both Mr. and Mrs. Brunson were badly bruised. Mr. Brunson has driven a team for fifty years and this is the first accident he ever experienced.

ALDERMAN Volheim is laughing about a joke on City Attorney Ellsworth. It was represented to the city attorney that a party would go to Paw Paw lake this morning to spend the day. Mr. Ellsworth went down to the morning train with a lunch basket filled for twenty but when train time came he was alone. The "boys" were watching about the corners of the station to see how he took it. Not to be outdone the city attorney got up a little crowd and made the trip this afternoon.

### THE TELEPHONE LINE.

Workmen are Now Setting Poles in Coloma Village

COLOMA, August 4.—The laborers in the employ of the Twin City Telephone company, under the immediate charge of Inspector Stevens, are now in this village setting poles. Their progress is from half a mile to a mile and a quarter per day.

The poles are now in place between this village and Watervliet, ready for the wires.

### A NOTABLE ADDITION.

The \$3,000 Annex to a Fine School Building.

WATERVLIET, August 4.—This village has always prided itself on its schools. It has always paid its teachers more than any other town of its size in this vicinity, and the building and grounds are kept in excellent condition.

There is now in process of construction a fine four room addition to the original building, which, when completed, will give Watervliet a school plant better than two-thirds of the towns of 1,000 people possess. Truly teachers and pupils can say that "their lines have fallen to them in pleasant places."

### DROWNED IN THE LAKE.

Two Grand Rapids Society Girls Perish at Ottawa Beach.

GRAND RAPIDS, August 4.—Clara, daughter of Sherwood Hall, and Ethel, daughter of E. J. Herrick, both of this city, aged 19 and 18 years respectively, were drowned at Ottawa beach yesterday afternoon.

They were bathing in Lake Michigan, and climbed upon a springboard north of the pier, where the water is about five feet deep. Miss Hall either fell or dove into the water and Miss Herrick followed. They were caught in the undertow and drowned before those on shore realized there was any danger. Up to 7 o'clock last night the life saving crew had not recovered the bodies.

Herrick and Hall are prominent business men here and their daughters were well known and popular in society. The families were spending the summer at the beach.

### NEW CIRCUS IDEA.

You Can Ride to Barnum & Bailey's Big Show on a Bicycle.

An innovation in circus management is the introduction of a bicycle checking department by Barnum & Bailey, who will bring the greatest show on earth to Benton Harbor next Saturday.

So many applications were made at the front door for permission to leave wheels in charge of employees that it was decided immediately after the present tour began to provide a tent near the main entrance where machines could be checked, brass tags issued to the owners and perfect security be secured. Wheelmen are glad to avail themselves of the opportunity to leave their "bikes" in responsible hands, and bicycle circus parties have become popular along the Barnum & Bailey route. In Washington, Baltimore, Richmond, Atlanta and Augusta a large number of "circus runs" were organized for the matinee performance, and the bicyclists of this city will undoubtedly follow suit.

Peter, the 22-inch dwarf, is proving the biggest attraction that has been brought to this country in years. Tom Thumb in his day was considered a wonderful dwarf, but he was a giant compared to this newest and smallest of all midgets.

Particular attention is called to the fact that Peter, the giantess, the Orissa twins, and fire-eaters, the weird musicians, and the human-appearing gorilla, Johanna, are all in the big show, and one ticket admits to everything.

### FOR THE CHILDREN.

Something New That Will Stand the Wear and Tear.

Joseph Frick has secured the agency for the new school shoe called Seal-Goat. The shoe is warranted not to rip or crack and is absolutely water proof. They will out-wear three pairs of ordinary shoes. Price, \$1.50 and \$1.75.

## A CURE FOR DRUNKENNESS REPORTED FROM THE LONG AGO.

The Remarkable Effect of the "Indian Doctor's" Simple Remedies—How the "Medicine" Cured Joe Robinson Without Asking the "Doctor."

It was about the medicated whisky cure which we proposed to speak. To Dr. Keeley, who, living down at Dwight, is almost a neighbor, credit is generally given for being the first person who employed the pharmacopoeia for the purpose of killing a drunkard's appetite. But Dr. Keeley is by no means entitled to this credit. The first physician whose medicine ever cured a drinking man of his thirst was a long haired, spectacled old tourist who called himself "the Indian doctor," and who operated down in the neighborhood of Belpre, O.

The doctor did not tell the secret of his medicament, but three or four boys who lived near the farmhouse where he boarded had an inkling, because the boys had the contract for catching the toads for which the doctor paid them 10 cents a dozen.

While the doctor's abode has been spoken of as a farmhouse it was more than that, for, being near a stockyard, where trains "lay over," it was also a boarding house, or tavern, whither the drovers came for entertainment. Among the stockmen whose duties brought them frequently to the yards, and therefore to the farmhouse boarding place, was a man named Joe Robinson, who had drunk whisky all the way from St. Louis to Baltimore, with special reference to Piedmont and the country along the 17 mile grade of the Baltimore and Ohio. Robinson was a firm, vigorous and vigilant drinker, one who allowed no guilty dramshop to escape. He was such a shining light that at least 12 temperance societies were working upon him at once, for it was known that the credit for his reformation would mean much. But he resisted all their entreating efforts.

This brings things up to one May evening. Robinson had arrived at Belpre with seven cars of hogs and a large, commodious and far-reaching jag. He took the hogs into the stockyards and the jag to the city of Parkersburg, W. Va., just across the river, for he wanted to trim and ornament it a little before retiring. Now it so occurred that it was a damp night, and Harry Stone and Hughey Drain, the boys who had the contract for supplying hoptoads to the salve making Indian doctor, set out on their own hook and without consultation with their employer to get a flour bag full of toads. They were eminently successful, and at 8 o'clock they appeared at the boarding house with a peck of kicking, piping, shrieking spoil. For good measure they had on this occasion added three belated garter snakes, two lizards and a hoot owl. The family was not happy.

Mrs. Bruce directed the boys to carry their burden, of the character of which she had no idea, up to the doctor's room, he being out. The boys did so—or at least they thought they did—but they turned the wrong corner at the head of the stairs and deposited the sack in the room to be occupied by Joe Robinson.

Mr. Robinson came home from Parkersburg about midnight. The evening had been a most successful one. He had found 12 new saloons. He entered the room in the boarding house with the presumption that he was either the czar of Russia or Napoleon Bonaparte, but was not quite sure which. In his doubt he collided with the paper flour bag full of hoptoads and things. There were a few words of wicked derivation, and then, turning up the light, Mr. Robinson looked to see what he had found.

"Who're you, feller?" he inquired, addressing the bag. "Won't answer, hey? Too 'plite to talk to a drover, huh? 'Lori Take that!" And he aimed an unsteady kick at the doctor's ingredients. Then things happened.

An active garter snake left the bag in midair, and, alighting on a picture frame, twisted and squirmed before Mr. Robinson's view. Then the toads began raining around him, and when he felt most surprised and interested the owl came forth and flew at the lamp. The sack fell to the floor and a lizard shot into lengthened view and the rest of the hoptoads leaped out into comparative liberty. Mr. Robinson clambered in fright upon the bed and found himself in the presence of half a dozen of the batrachian invaders which had been flung upon the counterpane by the force of that very vigorous and masterful kick. He crept behind the bureau and, lo! a garter snake dropped therefrom and made for the shelter of the closet. In the middle of the floor there were, he believed, about 8,953 varied kinds of hopping visitors, and with a wailing cry Mr. Robinson crashed through the vortex and made for the door and bolted for the night outside.

The next morning a very pale and unstrung man appeared at the farm boarding house and answered to the name of Joe Robinson. He went up to his apartment and looked about for some signs of the visitation of the night before, but the toads and things, more frightened than he, had escaped by the same door through which he had gone, while the careful hired girl had gathered up the door bag and burned it. Mr. Robinson sat down and thought for a moment, and then he said, addressing himself to the picture frame from which the snake had dangled, that this was the last thing. He had had enough. More would do too much.

And for the remaining 14 years of his travels that way he was the soberest driver known to history.

This, we believe, is really the first time that a doctor's medicines were in any perfect or incipient form successfully used to cure drunkenness.

Several men gathered about a horse near the western market commenting upon the prominence of the beast's ribs and general lankiness. The animal belonged to a farmer living near Ypsilanti, and, it was said, never permitted grass to grow under its feet on the road. The farmer was not pleased with the remarks and the strong inferences that the poor thing had never realized the sensation of corn and oats.

"What do you call your horse?" was asked.

"Cyclone, and don't he look it?" replied the man from the rural districts.

"Cyclone! What a name! He certainly looks as if one had struck him."

"That's what happened to him, my friend. It was just like this. You remember the awful breeze we had out to Ypsilanti about three years ago? This feller was a sucking colt at the time and was in the barn with two horses. The cyclone, regular old hummer, came along and thrashed the barn off its legs and dropped it high on to 100 yards away. After the twister had raised all the hob, fences and sheds it could we went out to look things up. The two horses were stone dead and the colt—would you believe it?—was nowhere to be found."

"Next day I turned over the hen-coop, which lay in the field half a mile away. Right in that coop and laying on the door which faced down was the colt. He commenced kicking when he heard us, and we took him out in a hurry. He wasn't scared a bit, I tell you, and was cool as a cucumber. The neighbors say they saw the coop goin through the air and the colt after it. The little feller caught the coop and got inside of it to save himself, that's what he did. That's the plain truth, and if you don't believe it ask the colt. Good day, strangers."—Detroit Free Press.

## PATENT APPLICATIONS.

The Vast Majority of These Sent to Washington Are Rejected.

The applications for patents filed average about 125 a day. There are 35 principal examiners, with perhaps 200 assistants. Every examiner and every assistant examiner has his own specialty. Let us take the case, say, of a poor inventor living in Oregon. He makes a valuable invention and desires to obtain a patent. He sends his application with \$15 to the commissioner of patents. It is referred to the examiner having charge of that peculiar class of inventions. It is his duty to reject it if anything can be found on which to base a rejection. Nearly 600,000 patents have been granted in the United States, and probably more than 1,000,000 in the rest of the world. If any of these anticipate the invention, the examiner must reject the application. It is not necessary that exactly the same thing should have existed before, for if anything substantially similar can be found the applicant must go to the wall. But, more than this, if anything similar has been described in any printed publication, in any language, anywhere in the world, or if without being patented or described in print it has been used anywhere in the United States, the examiner should reject.

The rub comes all the time upon the degree of similarity which will constitute an anticipation of the invention. A tremendous responsibility, it will be seen, is thus thrown upon the examiner. He wants to be safe. It is both his pride and his duty not to allow a patent to go out that ought to have been rejected. The consequence is that a great many examiners reject almost everything on the first examination. No matter how broadly new the invention may be, something can always be found that is akin to it. The nearest thing that can be found is used as a basis for rejection. —Washington Star.

## Mysterious Glass Balls.

The small island of Billiton, between Sumatra and Borneo, has long been famous for its rich tin mines, which are controlled by the Dutch government. In describing the geology of Billiton before the Royal Academy of Sciences in Amsterdam recently Mr. Verbeek gave an account of the mysterious "glass balls of Billiton," which are found among some of the tin ore deposits. They are round, with grooved surfaces. Similar balls are occasionally found in Borneo and Java, as well as in Australia. Mr. Verbeek thinks they cannot be artificial, and there are no volcanoes near enough to support the theory that they are volcanic bombs. Besides, he says, the glassy rocks produced by the nearest volcanoes are quite different in their nature from the material of the balls. He suspected that the mysterious objects were ejected ages ago from the volcanoes of the moon and afterward fell upon the earth.

## A Summer Cure.

In a news item in The Sun a doctor is quoted as saying that a day's abstinence from food will cure summer complaint. Some years ago the writer cured dysentery of several weeks' duration by taking a few wineglassful doses of the following formula at half hour intervals—viz, a tablespoonful of table salt and two of cider vinegar in a pint of water. The relief was permanent. The remedy was recently used by a person suffering from a customary summer complaint, and two doses effected a cure of the complaint. —E. R. D. in New York Sun.

The late Duke of Marlborough, in alluding to the size of Blenheim palace, used to say, by way of a joke, that it was the only residence in England which required \$4,000 worth of putty a year to keep the window panes in order.

Tomintoul, in Banffshire, Scotland, is the highest village above sea level in Scotland—if not in Britain. Until recently this village was comparatively unknown to the tourist world.

White Dome Geyser Yellowstone Park. "A mile and a half from the Fountain Hotel, and easily reached by bicycle, tourist wagon, or by walking, lies a hidden basin full of nature's caprices. At the entrance, as if on guard, stands the immaculate White Dome. As one approaches, he almost expects to be challenged and asked for a countersign. If such a challenge is given it is in a curious fashion, in the form of a geyser eruption, for the White Dome is a geyser. It is not unlike the Castle Geyser, or the White Pyramid of the Upper Geyser Basin. The geyser is a very white, rather dome-shaped mound, built up from the secretions of its waters, and is the most conspicuous feature of the locality. It is perhaps 25 feet high, with a circumference at the base of 75 or 100 feet. Its eruptions come at intervals of from twenty to forty-five minutes, being somewhat irregular, and the water is thrown to a height of from ten to twenty-five feet." Send six cents in stamps to CHAS. So Far as the Mines of the De Armit's Are Involved.

## MOST OF THE MEN HAVE QUIT.

De Armit Says Because They Are Afraid to Work, While the Strike Leaders Declare They Are Winning by Methods Perfectly Peaceful—That Question To Be Tested in Court—Situation in West Virginia—Indiana Strikers on the March.

Pittsburg, Aug. 4.—The lull in the situation after the exciting events of the last twenty-four hours is the first opportunity the strike leaders have had to size up the situation. As a result each of the three camps of striking miners was yesterday placed under strict military government. This will be continued until the camps are abandoned. Two members of the district executive board were placed at each camp. These men are to receive instructions from Dolan and Warner, and no further general move is to be made unless a general conference is held. Secretary Warner is experiencing great difficulty in getting provisions. The demand for bread is so great that the local bakeries were unable to meet the orders placed yesterday morning. As a result, the camp at Plum Creek will be on short rations.

In speaking of the situation last night, President Dolan said: "The entire success of the movement now depends upon the order maintained in camp. We have demonstrated to De Armit that his men, whom he had bound with the ironclads, were not invulnerable. When I left the mines today his entire interests were at a standstill. The New York and Cleveland company has given up all hope of operating the Sandy Creek mines, while those at Plum Creek and Turtle Creek are so badly crippled that there are not enough men to get out a car of coal. These statements are not based upon the idle talk of the men, but upon personal observation. Mr. De Armit undoubtedly recognizes that the strike situation is gradually assuming a favorable aspect for the men, and that if order can be preserved his defeat is certain."

When asked regarding the report of the need of the state military forces he said: "The men are orderly, and have never given any sign of making trouble. Instead they have been harassed by individuals who, it seems to me, want to incite riot and bloodshed among the men." Last evening Dolan issued a general order appointing Edward McKay general manager of Camp Determination, and empowering him to make arrests and eject all persons under the influence of intoxicants trespassing on the premises of the camp.

The miners' officials have retained W. J. Brennan to defend them at the hearing before Justice Semmens at Turtle Creek this afternoon. They are charged with riot and unlawful assembly. It is reported that there will be some fine points of law discussed. Attorney Sol. Schoyer will appear on behalf of the prosecutors. There are close upon 2,000 strikers in camp at Turtle Creek, 350 at Plum Creek and 800 at Sandy Creek. If this number is not sufficient to deter the De Armit miners from going to work all these camps will be largely increased before the end of the week. Arrangements are being made for the big meeting on the wharf tomorrow. It promises to be the greatest demonstration of the kind ever held in this city. Eugene V. Debs and Mrs. Mary G. Jones will be the stellar attractions among the speakers. Mayor Ford was asked by the men to preside over the meeting, which invitation he emphatically declined on the ground that he was acting neutrally in the strike question.

## DE ARMIT'S VIEW OF AFFAIRS.

Says His Men Are Afraid Even to Leave Their Wives Alone.

De Armit is confident the strikers cannot wholly shut down his mines and avers that a change will come over the scene within the next few days, although he does not say how it is to be brought about. De Armit intimated that he would soon spring the injunction against the miners which was granted May 25, 1895, and which was sustained by the supreme court after the superior court had reversed the lower court. This injunction, which was issued against John Cairns, Cameron Miller, Patrick Dolan, Owen Cruz, William Warner and others was made perpetual and restrains the defendants from assembling and encamping upon the highways, roads and premises adjoining the mines of the plaintiff, or in the vicinity of the same for the purpose of intimidating and preventing the plaintiff's miners from working, etc.

De Armit said: "The miners employed at our mines are not only intimidated from going to work, but they dare not leave their families at home at the mercy of a mob responsible to no one. The mob has increased until it is beyond the control of law." De Armit would not say, but judging from the remarks it is believed he is expecting that Sheriff Lowrey will call on the governor for troops to disperse the strikers.

## ATKINSON'S REPLY TO GOMPERS.

Seems to Think Those Injunctions Are All Right—Progress of the Strike.

Charleston, W. Va., Aug. 4.—Governor Atkinson has written a letter to Messrs. Gompers, Sovereign and Ratchford, a committee on behalf of the striking miners who called on him to inquire concerning the injunction against them and to ask what were their rights in connection with addressing miners. The governor reminds them that his office is executive and he cannot interfere with the action of the courts, but he goes on to say that in his opinion there is the utmost freedom allowed in the discussion in public places of any subject.

The only restrictions are that there must not be trespass upon the property of others nor incite to riot or unlawful violence. He assures the men that he will protect all citizens in the exercise of the right of free speech, warning them at the same time that if they abuse that right by interfering with the rights or property of others he will just as energetically use the power of the state to repress all lawlessness and preserve the peace.

Fairmont, W. Va., Aug. 4.—A secret conference of the miners of this district was held yesterday at which all the prominent leaders were present. Governor

of the district was present. The conference makes it evident that the Fairmont men will come out, and as Clarksburg is already tied up, it looks like the strike is nearly over, if it depends on the men of this district.

## INDIANA MINERS MARCHING.

They Make No Effort to Keep the Peace, but Drive Men Out.

Princeton, Ind., Aug. 4.—The striking miners of Daviess, Pike and Gibson counties have taken themarching fever, and yesterday a movement began in which they will attempt to close every coal mine in southern Indiana. The march began among the Daviess county miners. They invaded Pike county and closed the mine at Rogers and the Wooley mine at Petersburg. It is reported here that the strikers entered the Wooley mine and drove the men at work out like cattle. It is the intention of the strikers to close the Carbon and Ayrshire mines east of Oakland City, but it is feared that they will encounter trouble at Ayrshire, as the men there are determined to work.

The strikers have threatened to seize a Louisville and St. Louis Air Line freight train and take it to Huntington, where they will call the men out. They will then go down the Evansville branch on the Air Line and close all the mines in Warrick, Spencer and Perry counties. Superintendent Holbrook, of the Air Line, has asked the sheriffs of the various counties through which his line passes for protection, and it is said the sheriffs have promised to do so. Trouble is feared.

## SETTLED BY ILLINOIS ARBITRATORS.

Book Binders Win a Case Against Several Big Chicago Firms.

Springfield, Ill., Aug. 4.—In the matter of the joint application of W. B. Conkey & Co., the George Hill Co., Brock & Rankin, and the Thomas Knapp Printing and Binding company, and their employees represented by the Chicago Printers' and Book Binders' union No. 8, of the International Brotherhood of Book Binders, the board of arbitration yesterday rendered a decision to the effect that the employees had the right to withdraw the agreement and scale of wages known as the "blue scale." This decision will put into effect the "white label" scale, and is a victory for the employees. Both sides entered into a written agreement to abide by the decision of the board of arbitration.

## Struck Out of Work.

Mt. Vernon, Ill., Aug. 4.—Every miner employed in the local mines refused to return to work yesterday. They all called at the office and were paid off in full. The company is filling its contracts with coal shipped from Kentucky and Tennessee. A coal famine is probable here in a few days. The water works began the use of wood fuel yesterday and it is most likely the mills will be compelled to do likewise in a few days. These men struck out of sympathy and were given until yesterday noon to return to work. They were earning from \$2 to \$4 per day.

## Miners Make Grave Charges.

Altoona, Pa., Aug. 4.—Although the Mitchell coal operators at Hastings supposed they had made satisfactory terms with their miners, the men are still out, because of a rumor that the mines are about to pass into other hands. The trouble at the Sterling mine No. 8 is still on. Thirty-two men have taken a new step by suing the officials of the mine for the value of the fifth ton taken of their wages. The miners say that in addition to being obliged to dig 2,500 pounds for a ton they have been robbed of every fifth car they put out.

## Strikers Fractured His Skull.

Brazil, Ind., Aug. 4.—Monday evening a number of miners went to the Big Four mine belonging to the Indiana Block Coal company and ordered Walter Wright to discontinue work. He refused and a fight occurred, in which William Daniels struck Wright on the head with a club, fracturing his skull and rendering him unconscious.

## ABBREVIATED TELEGRAMS.

Dr. Truman W. Brophy, of Chicago, has been elected president of the National Association of Dental Faculties. Assistant Secretary Howell has rendered a decision in which he holds that calf-skins should be classed as "hides of cattle."

A notice has been posted at the Warumbo mill, Lisbon Falls, Me., announcing a cut in wages of from 12 to 16 per cent.

Nelson Dingley, father of Representative Nelson Dingley, Jr., died at his home in this city yesterday. He was 83 years of age.

Louis Alleman, Willie Schuen and Eddie Johnson, boys ranging in age from 9 to 15, were drowned in the river at St. Louis while bathing.

The Tilden mine at Bessemer, Mich., has closed down completely, throwing out 250 men indefinitely. The officials say there is no sale for its ore.

The Niedringhaus Granite Ware works at Granite City, near East St. Louis, Ill., have been closed because the supply of coal has given out.

Gold coin amounting to \$750,000 was exported to Europe yesterday from New York, making a grand total of gold exports since the present movement began of \$28,419,573.

The body of an unidentified man was found on Windsor park beach, Chicago. There was a bullet in the man's head, but whether the fatal wound was self-inflicted is not known.

J. H. Hansler, a telephone lineman, had a narrow escape from death in midair at Chicago. While at work on a pole he grasped a live wire and was frightfully burned before rescued.

The Lutheran church and school house at Woodland, Dodge county, Wis., were struck by lightning and destroyed. George Williams, a farmer living north of Juneau, lost four cows which were under a tree.

Terence V. Powderly, of Pennsylvania, formerly master workman of the Knights of Labor, yesterday took the prescribed oath and received his commission as commissioner general of immigration, succeeding Herman Stump, of Maryland.

Lee Merriweather, as well known as any man in Missouri, ex-labor commissioner and Democratic candidate for mayor of St. Louis at the last election, had a head-on collision with a southerner on the streets of St. Louis.

## FARMING IN THE SOUTH.

NO DROUGHTS, GENIAL CLIMATE AND AVAILABLE SECTIONS ESPECIALLY ADAPTED TO SETTLEMENT BY NORTHERN FARMERS.

Almost every variety of grains and grasses grown in the North can be successfully grown in the South, but the crops that give best results for the money invested and labor expended are fruits and vegetables. Cotton is no longer king in the South. This wonderful change may possibly have been brought about by the large number of Northern farmers that have located at so many points on the Illinois Central and the Yazoo & Mississippi Valley railroads in the States of Kentucky, Tennessee, Mississippi and Louisiana, and carried with them the

PRACTICAL IDEAS OF DIVERSIFIED FARMING as practiced in the North. No country in America can compare with southern Mississippi and northern Louisiana for the cultivation of fruits and vegetables, and the time is not far distant when this locality will supply the early markets of the North and North-west. All who contemplate a change of location should investigate this favored section, to aid in which, send for a free copy of the

SOUTHERN HOMESEEKERS' GUIDE For 1895, describing the agricultural and horticultural advantages of the country traversed by the Illinois Central and the Yazoo & Mississippi Valley Railroads in the States of Kentucky, Tennessee, Mississippi and Louisiana. It is a 120-page book issued by the Illinois Central Railroad Co., containing many fine illustrations and facts about the South. ## PAW PAW LAKE BREEZES

Steamboats Disabled and Resorters Turned Away.

COLOMA, August 4.—On Monday and Tuesday two of the smaller steamers attempted to handle the heavy traffic incidental to this time of the year, and the service was inadequate. Some of the boats are disabled.

On Sunday over half the resorters who came to spend several days were obliged to return to Chicago on the night boat, there being no suitable accommodations open for them. Boarding house keepers are crowded, and while this circumstance was regretted, it unfortunately happened that the rush was too great. It may not, and, we hope will not occur again.

### ST. JOSEPH.

Frank Salm has returned from Bangor.

A son was born yesterday to Mr. and Mrs. Oliver Legg.

Dudley Wallace's condition is more serious again, his recovery being very slow.

The hop at Drake & Wallace's pavilion was attended by a very fashionable crowd last night.

Sam Miller, of New York City, is the guest of his parents whom he has not visited in three years.

E. A. Graham will build a brick store 35x70 feet and two stories high on his lot on State street near the residence of J. H. Graham. Work will begin at once.

"The Chimney Corner" will be presented at the Academy of Music tomorrow night for the benefit of Messrs. Welch, Wesner and Mitchell of the Baker Stock company. Professional talent will appear throughout the play.

The annual picnic of the Watermelon club will be held tomorrow at Yellow Creek to which place the members will be conveyed on the steamer Tourist. The club is 10 years old and includes a happy aggregation of St. Joseph citizens.

A boating party including Mrs. T. S. Kerns, Mr. and Mrs. H. C. Muhle and son, Mrs. C. J. Harpel, Mr. and Mrs. Shideler, Mrs. A. Vincent, Miss Wade, Miss Maude Vincent and Mr. Blake, made the trip to Berrien Springs yesterday on the steamer May Graham.

### HER ONLY FAULT.

As I went to my bachelor chamber one night  
And reflected on life as I put out the light  
I resolved that the clubs I would visit no more,  
But devote my affections to dear Isadore.

She is faultless in figure and lovely in face,  
Every movement the very perfection of grace—  
So confiding and gentle, congenial and sweet  
That the stoics and cynics are all at her feet.

Like the wings of the humming bird over the  
keys

Fly her tapering fingers in Liszt's potpourris;  
She excels on the harp and the Spanish guitar,  
And her voice is soprano that reaches to fa.

She is witty and brilliant in quick repartees,  
And she sings cavatinas with marvelous E's,  
Conversation in German and French can sustain,  
And has traveled in Italy, Egypt and Spain.

All the tender emotions so scented before  
Were aroused in my heart for the fair Isadore,  
But my growing affections are nipped in the  
bud.

For she will drag her skirts through the streets  
in the mud!  
—W. H. Morris in New York Ledger.

### A WONDERFUL POND.

Human Eyes Are Often Inhabited by Large Numbers of Living Creatures.

The water contained in a well developed, well formed eye in which the sight is not impaired, more especially where a person is farsighted, presents many curious phenomena. Looking through an open window in daylight upon a hazy atmosphere or upon a fog such as is seen in any city, or looking to the north upon a gray atmosphere, one will see, if conditions are as above, strange disks flitting and jumping about in the eye water. It has been my privilege to watch these organisms for several years, flitting about in the eye water, jumping toward each other again in strife and combat, in the which the water would become comparatively clear of amœbiform organisms, only to be again full of micrococci and the combats as above.

The various shapes of these animalcules are surprising. Some are attenuated, with fine filaments. Again, others are like wee bits of fine porcelain, with little projections, reminding one of turtles hopping about. Again, others present the appearance of cyclops and daphne.

How these organisms get into the eye water is a mystery—perhaps in the water we drink or foods we eat, either or both. The fact that the eye water is inhabited, like all other bodies of water, is a truth that can be proved positively, beyond peradventure, by any oculist when he may extract a diseased eye and place the fluid under the glass.

May not the accumulation of these organisms in the eye water, their rapid growth and the survival of the fittest or strongest be the cause of much blindness, wherein may be cataracts, or other forms of disease?

May not numerous headaches and other pains be caused by the overaccumulation or growth of these minute organisms, in which they stop the circulation of the active principle of life in the arterial circulation or the nervous forces? The same organisms are seen when looking upon drawing paper.—William W. Goodrich in New York Herald.

South a Roman candle, exploded in the house of John O'Meara, superintendent of the Moonlight mine, near here, resulting in the death of three children. What appeared to be a Roman candle was found near O'Meara's residence by Mamie Benson and two other little girls. While playing with it one of the children struck it with a piece of iron. It exploded, and the O'Meara child was literally peppered with fragments of brass, lead and glass. The other two children were terribly cut. Several attempts have been made on O'Meara's life heretofore.

### Next!

Fort Dodge, Ia., Aug. 4.—R. B. Canfield baked two apples in the sun last week. No effort was made to concentrate the heat beyond laying the fruit on a board where Old Sol's rays hit it fairly without obstruction. It took two days to cook them through, but at the end of that time they were done to a turn. Canfield ate them with cream and sugar. He pronounced the flavor delicious, but he carries an umbrella now lest he become himself the victim of the heat rays.

### Klondyke Risks Are too Hazardous.

Chicago, Aug. 4.—The Chicago agent of the Travelers' Insurance company, of Hartford, Conn., has received instructions from his home office not to insure any person going to the Klondyke region. It is a risk that the company does not desire to take on account of the extreme hazard and because when death takes place the difficulty of obtaining the facts makes settlement of claims too difficult to be practicable.

### Wheat Crop of Michigan.

Detroit, Aug. 4.—Gillet & Hall, the veteran grain dealers, in speaking of the new crop, said: "It is coming in slowly, because it is about three weeks late, but is of a very fine quality. The crop will be 25,000,000 bushels, as against 15,000,000 last year. Sixty cars of new wheat came in yesterday, making 150 on the crop. Preparations are now making for a free movement."

### Pioneer Wisconsin Man Dead.

Janesville, Wis., Aug. 4.—Frank Sheldon Lawrence, an early settler of Rock county, died at his home in this city, aged 72 years. He came to Janesville to reside in 1852. He served as clerk in the office of secretary of state from 1860 to 1864, and was a member of the state assembly in 1879-80.

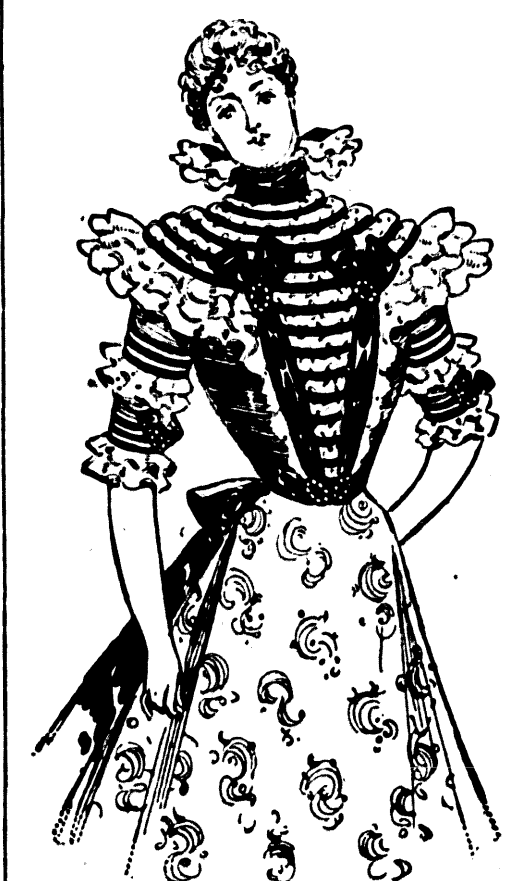

### Fald About \$2 a Steer.

Nogales, A. T., Aug. 4.—The first importation of American cattle under the Dingley tariff law was made through the custom house here. Six hundred and forty head of steers, the property of E. S. Newman, were brought into this country, the duty being \$1.25 over the duties fixed by the Wilson bill.

### THE PREVAILING SKIRT.

Tight Gloves and Shoes Not In Taste. Dressing the Hair.

The skirt of the period is close around the hips, flaring at the foot, especially toward the back, and has no godets in front or at the sides. It varies in cut according to the material employed, its weight and width and the size of the person for whom the skirt is intended. All skirts are ordinarily lined, excepting those of muslin and other transparent, sheer goods, and also have an inside facing at the foot

### DINNER BODICE.

of haircloth or other stiffening. This is diminishing in size and rigidity all the time. There are also full skirts, shirred around the hips and mounted at the belt over an underskirt of silk, made quite close and plain.

To have white hands it is necessary to avoid tight gloves, which are not only injurious, but inelegant. Persons of good taste never wear tight gloves or tight shoes. They leave those to servants, whose extremities are characteristically clothed in coverings strained to the bursting point. No defect in the toilet is more striking than the appearance of a foot crowded into a shoe too small for it, bulging in the wrong places and looking as if it had been forced in by some mechanical process. To return to the care of the hands, real almond meal is excellent for whitening them, and loose, old gloves should always be worn about the rougher household duties. One should never go out of doors without gloves on also.

The hair is worn very high, the nape of the neck being left uncovered. The side hair is waved and arranged in a slightly bouffant style.

A picture is given of a dinner bodice of suede surah. It is close fitting at the back and has a yoke and plastron of light pink surah, shirred under narrow bands of brown velvet. The yoke and plastron are bordered by pink ruffles forming epaulets. Ribbons of brown satin are fastened in front by paste buckles and join the brown satin belt, which is tied behind. The half length sleeves of suede surah are trimmed with ruffles of pink surah and narrow bands of brown velvet. Bows of brown satin are fastened at the edge of the sleeves by paste buckles. The collar of suede surah is trimmed with pink ruffles.

JUDIC CHOLLET.
